

**PRODUCT ALERT**

**Important notice: Infection Control Products 3/23/20**

We continue to closely monitor the coronavirus situation and are diligently working with our suppliers to meet the higher than normal demand for facemasks and other infection control products. We anticipate disruption in product availability and order fulfillment in the weeks ahead. Based on this disruption, certain high-volume items may be backordered or out of stock when you place your order. You may be asked to remove the item(s) from your cart as the product may temporarily be unavailable. Additionally, certain infection control items may not be returned.

Please contact your local Patterson Territory Manager or Customer Service Representative for more specific product availability.
