Re: Minocycline HCl Capsules, Multivitamins with Fluoride Tablets, Multivitamins with Fluoride and Iron Tablets, Penicillin V Potassium Tablets, Tizanidine HCl Tablets, Torsemide Tablets, Tramadol HCl Tablets, and Ursodiol Capsules

Dear Customer:

Thank-you for your inquiry regarding the status of our products under OSHA's Hazard Communication Regulation 29 CFR 1910.1200.

The Hazard Communication Standard exempts most of our products from the scope of its application since they are either in a solid final form for direct administration to a patient; are considered consumer products as defined in the Consumer Product Safety Act (15 U.S.C. 2051 et. seq.); or fall under the guidelines defined in the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et. seq.) and regulations issued under that act by the Food and Drug Administration. Minocycline HCl Capsules, Multivitamins with Fluoride Tablets, Multivitamins with Fluoride and Iron Tablets, Penicillin V Potassium Tablets, Tizanidine HCl Tablets, Torsemide Tablets, Tramadol HCl Tablets, and Ursodiol Capsules are exempt from the standard. Material Safety Data Sheets are not available for these products. All pertinent information regarding the safe handling and use of these products can be found on the package inserts.

I hope this information is of value to you. If you have any additional questions regarding the status of our products under the OSHA Standard, please feel free to contact our Loss Prevention Office.

Sincerely,

Andrew R. Barnes, Jr.
Loss Prevention Investigator
