\_\_\_\_\_ 1 Identification of substance Product details Trade name: Ivomec Pour-On for Cattle Product number: (2.5L), (5L), (20L) Manufacturer/Supplier: Merial Limited 115 Transtech Drive Athens, GA 30601 Merial Canada Inc. 345 N. Boulevard Labbe Victoriaville, Quebec G6P 181 Information Phone No.: 819-758-0506 Emergency Phone No.: 800-424-9300 Information department: MSDS Coordinator Emergency information: Spill In formation: CHEMTREC(R) 1-800-424-9300 CHEMTREC(R) International 1+703-527-3887 Reverse charges. Health Information: 1-888-637-4251, Option 5 \_\_\_\_\_ 2 Composition/Data on components Chemical characterization Description: Mixture: consisting of the following components. \_\_\_\_\_ \_\_\_\_\_ Components: Non hazardous 19 5% inert ingredients 67-63-0 Xi, F; R 11-36-67 80.0% Isopropanol 70288-86-7 Ivermectin Comp. T, N; R 20/21-25-50 0.5% Bla (C48H74O1) Comp. Blb (C47H72O14) 3 Hazards identification \_\_\_\_\_ Hazard description: Pictogram: F Highly flammable Information pertaining to particular dangers for man and environment: R 11 Highly flammable. Classification system: The classification was made according to the latest editions of international substances lists, and from company and regulatory data. NFPA ratings (scale 0 - 4) Health = 3Fire = 3Reactivity = 0HMIS-ratings (scale 0 - 4) Health = 3Fire = 3Reactivity = 0\_\_\_\_\_ 4 First aid measures \_\_\_\_\_ General information: No special measures required. Involve doctor immediately. After inhalation: Seek immediate medical advice. After skin contact: Immediately wash with water and soap and rinse thoroughly. After eye contact: Rinse opened eye for a minimum of 15 minutes under running water. If symptoms occur, consult a doctor. After swallowing: Immediately call a doctor. Induce vomiting, if person is conscious. Seek medical help.

5 Fire fighting measures \_\_\_\_\_ Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water. Water mist For safety reasons unsuitable extinguishing agents: Water with full jet Protective equipment: Fire fighters should wear selfcontained breathing apparatus and full protective equipment. \_\_\_\_\_ 6 Accidental release measures \_\_\_\_\_ Person-related safety precautions: Mount respiratory protective device. Wear protective equipment. Keep unprotected persons away. Measures for environmental protection: Do not allow product to reach sewage system or any water course. Measures for cleaning/collecting: Absorb with liquidbinding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to Section XIII. Ensure adequate ventilation. Do not flush with water or aqueous cleansing agents 7 Handling and Storage \_\_\_\_\_ Handling: Information for safe handling: Store in cool, dry place in tightly closed containers. Handle with care. Avoid jolting and impact. Use only in well ventilated areas. Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Protect against electrostatic charges. Storage: Requirements to be met by storerooms and receptacles: Store in a cool location. Store only in the original container. Protect from light. Information about storage in one common storage facility: Not required. Further information about storage conditions: Keep receptacle tightly sealed. Store in cool, dry conditions in well sealed receptacles. Store in a cool, dry, well ventilated place. \_\_\_\_\_ 8 Exposure controls and personal protection \_\_\_\_\_ Additional information about design of technical systems: No further data; see item 7. Components with limit values that require monitoring at the workplace: 67-63-0 Isopropanol ACGIH TLV (USA) Short-term value: (1230) mg/m3, (500) ppm Long-term value: (983) mg/m3, (400) ppm NIC A 4 NIOSH REL (USA) Short-term value: 1225 mg/m3, 500 ppm Long-term value: 980 mg/m3, 400 ppm OSHA PEL (USA) 980 mg/m3, 400 ppm MAK (Germany) 500 mg/m3, 200 ppm Y; (DFG) \_\_\_\_\_ Additional information: The lists that were valid during the creation were used as basis. Personal protective equipment: General protective and hygienic measures: Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Do not eat, drink, smoke or inhale. Do not store food in the working area. Protection of hands: Not required under normal conditions of use. Eye protection: Pictogram: Tightly sealed goggles

Body protection: Impervious protective clothing

#### **1 Identification of substance**

· Product details

· Trade name: IVOMEC POUR-ON FOR CATTLE

 Manufacturer/Supplier: Merial Limited 3239 Satellite Blvd. Duluth, Ga. 30096-4640 1-888-MERIAL 1 (1-888-637-4251)
 Emergency information: Spill Information: CHEMTREC® 1-800-424-9300 CHEMTREC® International 1+703-527-3887 International calls 011+703-527-3887 Reverse charges.

#### 2 Composition/Data on components

• Chemical characterization
-----------------------------

· Components:					
67-63-0		🗙 Xi, 🔥 F; R 11-36-67	80.0%		
	Ivermectin Comp. B1a Comp. B1b	👿 T, 握 N; R 20/21-25-50	0.5%		
	Non hazardous inert ingredients		19.5 %		
· Additional i	nformation: For the wording of the listed risk phrases refer t	to section 16.			

#### **3** Hazards identification

#### · Hazard description:

Irritant Highly flammable

· Information pertaining to particular dangers for man and environment:

The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version. Has a narcotizing effect. Highly flammable. Irritating to eyes. Vapours may cause drowsiness and dizziness • **Classification system:** The classification system:

The classification was made according to the latest editions of international substances lists, and from company and regulatory data.

USA -

#### 4 First aid measures

- · General information: Immediately remove any clothing soiled by the product.
- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact:
- Immediately wash with water and soap and rinse thoroughly.
- If skin irritation occurs, consult a doctor.
- · After eye contact:
- Rinse opened eye for a minimum of 15 minutes under running water. Get medical attention immediately.
- *After swallowing:* Do not induce vomiting; immediately call for medical help.
- · After self injection
- · Information for doctor. In case of symptomatic effect provide treatment to maintain life functions.

#### **5** Fire fighting measures

- · Suitable extinguishing agents:
- CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- · For safety reasons unsuitable extinguishing agents: Water with full jet
- · Protective equipment: Self-contained breathing apparatus and full protective equipment.

#### **6** Accidental release measures

- *Person-related safety precautions:* Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation
- *Measures for environmental protection:* Do not allow product to reach sewage system or any water course.
- Measures for cleaning/collecting:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose of contaminated material as waste according to section 13.

*Ensure adequate ventilation.* 

#### 7 Handling and storage

- · Handling:
- · Information for safe handling:
- Store in cool, dry place in tightly closed containers. Handle with care. Avoid jolting and impact. Use only in well ventilated areas.

Printing date 10/13/2010

Reviewed on 10/13/2010

#### Trade name: IVOMEC POUR-ON FOR CATTLE

- *Information about protection against explosions and fires: Keep ignition sources away - Do not smoke. Protect against electrostatic charges.*
- · Storage:
- Requirements to be met by storerooms and receptacles: Store in a cool location.
- · Information about storage in one common storage facility: Not required.
- $\cdot$  Further information about storage conditions:
- Keep receptacle tightly sealed. Store in cool, dry conditions in well sealed receptacles. Store in a cool, dry, well ventilated place.
- · **Recommended storage temperature:**  $< 30^{\circ}C (86^{\circ}F)$

#### 8 Exposure controls and personal protection

# SECTION 6 ACCIDENTAL RELEASE MEASURES

**Remove all sources of ignition.** If spill is of significant quantity, move non-essential persons away. Put on the protective equipment recommended in Section 8. Seal leak if safe to do so and place leaking receptacles in an over-bin. Contain spill with absorbent material such as dry sand or kitty litter. Do not allow liquid to enter drains or sewer. Sweep up used absorbent and pack in properly labelled container for disposal. To cleanse the contaminated area, wet down contaminated area with a small amount of water, cover again with absorbent, sweep up used absorbent and place in labelled container. Consult waste authority regarding disposal.

**OCCUPATIONAL RELEASE:** As for accidental release. Wear impervious gloves and eye protection to deal with a large spill.

# SECTION 7 HANDLING AND STORAGE

Poisonous if swallowed. Will irritate the eyes and skin. Avoid contact with the eyes, skin and clothing. If clothing becomes contaminated with product, remove clothing and launder. If product is on skin, immediately wash area with soap and water. If product is in eyes, wash it out immediately with water. After use and before eating, drinking or smoking, wash hands thoroughly with soap and water. After each day's use, wash contaminated clothing.

Classified as Dangerous Goods of Class 3 (flammable). Store away from oxidising agents. Do not store with food. Store in original container below 30 deg.C. Protect from light. Ventilation: Use only in a well ventilated space.

Sources of ignition: Do not open or use within 8m of a source of ignition.

# SECTION 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

No ingredients that require workplace atmosphere monitoring have been identified by the manufacturer. EXPOSURE LIMITS: NOHSC TWA = 983 mg/cu.m (isopropanol) NOHSC STEL= 1230 mg/cu.m (isopropanol)

No exposure limits have been established by NOHSC, however, a TWA of not more than 0.2 mg/cu.m of lvermectin active ingredient is recommended by the manufacturer

The Time Weighted Average (TWA) is the concentration of the substance in the worker's breathing zone, exposure to which over 8-hour days, 5-day weeks over a working lifetime, should not cause any undue discomfort or health impairment to most workers. The Short Term Exposure Limit (STEL), means a 15 minute TWA exposure which should not be exceeded and should not be repeated within 60 minutes or more than four times per day.

Exposure Controls / Industrial hygiene:

VENTILATION:	Good ventilation for normal use.
RESPIRATOR:	Not required for normal use.
EYE PROTECTION:	Not required for normal use.
SKIN PROTECTION:	Not required for normal use.

#### Personal Protective Equipment for cleaning-up a significant spill:

EYE PROTECTION: Use eye protection complying with AS 1336 / 1337. SKIN PROTECTION: Wear impervious gloves such as neoprene rubber or PVC-coated cotton gloves complying with AS/NZS 2161.2., overalls and impervious footwear. Wear a respirator if a mist or aerosol is formed from a large spill.

## **SECTION 9**

# PHYSICAL AND CHEMICAL PROPERTIES

Appearance Odour. pH. Boiling point/range. Freezing Point Vapour pressure: Solubility in water Specific gravity or density. Flash point Autoignition temperature Viscosity. Octanol/water partition coefficient. Reactivity Burning characteristics. Incompatible materials. Blue liquid. Alcoholic Not relevant 82.5 deg.C Not determined 43 hPa @ 20 deg.C Poorly miscible (Ivermectin ingredient solubility = 4 mg/L) Not determined 14 deg.C 425 deg.C Not determined log Po/w = 5.4 (Ivermectin) Not an oxidising agent. Flammable. Strong oxidizing agents or peroxide formers.

# SECTION 10 STABILITY & REACTIVITY

Thermal decomposition: Hazardous decomposition products:	Not expected at normal temperatures. Products of photodegradation have not been identified.
Dangerous reactions:	None known.
Reactivity:	Stable but readily oxidised by oxidising agents such as pool and spa chlorine, permanganates, chlorates and may catch fire in contact with them.
Conditions to avoid:	Contact with any oxidising agent, strong acids and strong alkali. Incompatible with oxidising agents.
Hazardous decomposition:	No significant decomposition expected at normal temperatures.
Polymerisation:	No hazardous polymerisation will occur.

Version: 3 Issue Date: 19 January 2011 Page 5 of 6

## SECTION 11 TOXICOLOGICAL INFORMATION

Health effects from the likely routes of exposure:

LD50 acute oral (rat): LD50 acute dermal (rat): LD50 acute dermal (rabbit): Inhalation LC50/4 hr (rat): Skin irritation (rabbit): Eye irritation (rabbit): Sensitisation (guinea pig): Genotoxicity	Product estimate 10000 mg/kg >100,000 mg/kg 90,000 mg/kg >1000 mg/L Not an irritant Eye irritant Not a sensitising agent Not genotoxic	Ivermectin active ingredient 50 mg/kg >660 mg/kg 406 mg/kg 5.11 mg/L Skin irritant Eye irritant Not a sensitising agent Not genotoxic
Local effects:		
Target organs:	Eyes,	
Hazardous ingredients:		= 20/21, 25, 50
Mutagenicity data:	Not toxic in humans up to 2000 Negative in Ames test. Negative assay. Does not induce unsch fibroblast cell culture.	ontact with skin. Toxic if swallowed. ) μg/kg bodyweight orally. ve in mouse lymphoma mutation eduled DNA synthesis in human
Subacute to chronic toxicity:	No data.	
Additional toxicological information:	chloride channels, including the patients with potentially toxic l	o glutamate-gated chloride ion o interact with other ligand-gated ose which enhance GABA activity in vermectin exposure (e.g. barbiturates, ). Reproductive toxicant in rabbits
The following symptoms may occur:	Overexposure to ivermectin ma coordination, drowsiness, slow anorexia, muscle tremors, hea	breathing, tremors, vomiting,

# SECTION 12 ECOLOGICAL INFORMATION

The following Information applies to the Ivermectin active ingredient.

Environmental fate: Ivermectin photodegrades rapidly in the environment and is metabolized in the soil. Water solubility is limited and it binds to soil very tightly. It does not bioconcentrate in fish and is not taken up from soil into plants. Does not bioaccumulate. Ivermectin active ingredient:

	i toimeetan acave mgreatenta
TOXICITY TO FISH:	$LC50 = 0.3 \mu g/L$ - Rainbow Trout - very toxic to fish.
TOXICITY TO DAPHNIA:	LC50 48 hr = 0.025 µg/L ( <i>D. magna)</i> - very toxic to Daphnia
TOXICITY TO ALGA:	Not available
TOXICITY TO BACTERIA:	Not available
READY BIODEGRADABILITY:	Not available

Version: 3 Issue Date: 19 January 2011 Page 6 of 6

## **SECTION 13**

Special precautions:

## **DISPOSAL CONSIDERATIONS**

As the active ingredient is highly toxic to aquatic organisms, great care is needed to ensure that the product does not reach drains or waterways.

Method of disposal:

Triple or (preferably) pressure rinse the empty container. Dispose of waste product/rinsate in a disposal pit specifically marked and set up for this purpose clear of waterways, vegetation and roots. Return clean container for recycling where this is an option or for disposal at a landfill authorised to accept that waste. If neither of these options are available, bury the container below 500 mm in the disposal pit specifically marked and set up for this purpose clear of waterways, vegetation and roots. Empty containers should not be burned. Contaminated water can be treated by activated carbon absorption.

For the disposal of the clean-up materials from a significant spill consult waste authority.

## **SECTION 14**

# **TRANSPORT INFORMATION**

Surface transport: UN Number UN Proper Shipping Name Class and subsidiary risk Packing Group Special precautions for user Hazchem Code Labelling: Transport as : Incompatible stowage:

1219 ISOPROPANOL 3 II None 2[Y]E DG Labelling required for containers/shippers > 150 mL volume Class 3 DG Foodstuffs

# SECTION 15 REGULATORY INFORMATION

This product is registered with the Australian Pesticides & Veterinary Medicines Authority (APVMA Approval No. 45721)

## SECTION 16 OTHER INFORMATION

Do not allow product to reach ground water, water course or sewage system. Poisonous to fish and some aquatic invertebrates.

IVOMEC is a registered trademark of Merial Limited.

ACRONYMS USED IN THIS MSDS

SUSDP	Standard for the Uniform scheduling of Drugs and Poisons
ADG Code	Australian Dangerous Goods (DG) Code
CAS No.	Chemical Abstracts number
UN No.	United Nations identifying number for DG
R-phrases	Risk phrases identifying main hazard of ingredient or product
S-phrases	Safety phrases identifying main safety measures to be used
NÓHSC	National Occupational; Health and Safety Commission
NTP	National Toxicology Programme (USA)
IARC	International Agency for Research on Cancer

SUPPLIER STATEMENT: The product should be stored, handled and used in accordance with good industrial hygiene practices and in conformity with legal regulations.. The information in this MSDS is based on the level of knowledge at the time of preparation and relates to the product in the state in which it is supplied. The information describes the product from the safety point of view and is not intended to guarantee any particular properties and shall not establish a legally valid contractual relationship
