SAFETY DATA SHEETS

This SDS packet was issued with item:

078944692

The safety data sheets (SDS) in this packet apply to the individual products listed below. Please refer to invoice for specific item number(s).

078846089 078846097 078846105 078846113 078918211 078937219 078944693

The safety data sheets (SDS) in this packet apply to one or more components included in the items listed below. Items listed below may require one or more SDS. Please refer to invoice for specific item number(s).

Effective Date 28/01/2016 Review Date 2710112018

Section 1: Chemical Product and Company Identification

Product Name: Methocarbamol

Synonyms: Guaiacol glycerol ether carbamate

Category: Muscle relaxant

CAS No.: 532-03-6

Molecular Weight: 241.2 g/mole

Chemical Formula: C₁₁H₁₅NO₅

Hazard class emblem:

Contact Information:

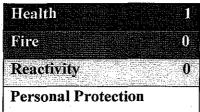

Jeedimetla Address:

M/s Granules India Limited.

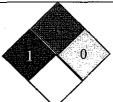

15A/1, Phase-III, IDA Jeedimetla,

Hyderabad - 500 055, T.S. India.

Phone: 040 - 3066 0200 Office: 040 - 30667100

NFPA Rating emblem:

Classification, Labeling and Package (CLP Regulations, EC No. 1272/2008 and packaging of substances and Mixtures):

Carcinogenic – Not classified according to the CLP regulations

Mutagenic

- Not classified according to the CLP regulations

Toxicity

-1) Acute Toxicity (oral)- Category 4

2) Classified as per the CLP regulation as Specific Target Organ Toxicant- Single Dose Exposure- Category 3 (STOT SE 3)

Hazard Classification

Hazard Statement

Pictogram

Category 4

H302: Harmful if swallowed

Category 3

H336: May cause

drowsiness/dizziness.

Warning

Precautionary Statements

P260: Do not breath dust.

P243: Take precautionary measures against static discharge.

P273: Avoid release to the environment.

P280: Wear protective gloves/protective clothing/eye protection/face protection.

P352: IF ON SKIN: Wash with plenty of soap and water.

P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present

P312: Call a POISON CENTER or doctor/physician if you feel unwell.

Section 4: First-aid Measures

Inhalation: Remove from exposure immediately. Use a bag valve mask or similar device to perform artificial respiration (rescue breathing) if needed. Get medical attention.

Skin Contact: Remove contaminated clothing and shoes immediately. Wash with soap or mild detergent and large amounts of water until no evidence of chemical remains (at least 15-20 minutes). Get medical attention, if needed.

Eye Contact: Wash eyes immediately with large amounts of water or normal saline, occasionally lifting upper and lower lids, until no evidence of chemical remains. Get medical attention immediately.

Ingestion: If vomiting occurs, keep head lower than hips to help prevent aspiration. Get medical attention, if needed.

Section 5: Fire-fighting measures

Fire and Explosion

Slight fire hazard.

Hazards

Extinguishing Media

Regular dry chemical, carbon dioxide, water, regular foam

Large fires: Use regular foam or flood with fine water spray.

Fire Fighting

Move container from fire area if it can be done without risk. Do not scatter spilled material with high-pressure water streams. Dike for later disposal. Use extinguishing agents appropriate for surrounding fire. Avoid inhalation of material or combustion by-products. Stay

upwind and keep out of low areas.

Section 6: Accidental Release Measures

Occupational Release

Collect spilled material in appropriate container for disposal. Keep out of water supplies and sewers. Keep unnecessary people away,

isolate hazard area and deny entry.

Section 7: Handling and Storage

Handling

Avoid direct or prolonged contact with skin and eyes. Avoid breathing dusts. This material is a pharmaceutical; handle in accordance with all current regulations and standards.

Storage

Preserve in tight containers and store at controlled room temperature.

Section 8: Exposure Controls/Personal Protection

Exposure Limits

No occupational exposure limits established.

Engineering Controls

Provide local exhaust ventilation system. Ventilation equipment should be explosion-resistant if explosive concentrations of material are present. Ensure compliance with applicable exposure limits.

Protective clothing:

Eye Protection

Wear splash resistant safety goggles. Provide an emergency eye wash fountain and quick drench shower in the immediate work area. Skin contact should be minimized through use of gloves and suitable

Skin Protection

long-sleeved clothing (i.e., shirts and pants). Consideration must be

given both to durability as well as permeation resistance.

Respiratory Protection

Under conditions of frequent use or heavy exposure, respiratory protection may be needed. When respirators are required, select NIOSH/MSHA approved equipment based on actual or potential airborne concentrations and in accordance with the appropriate regulatory standards and/or industrial recommendations.

Under normal conditions, in the absence of other airborne contaminants, the following devices should provide protection from this material up to the conditions specified by the appropriate OSHA, WHMIS or ANSI standard(s): Air-purifying (half-mask/full-face) respirator with cartridges/canister approved for use against dusts, mists and fumes.

Work Practice Controls

Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this material:

- (1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.
- (2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.
- (3) Wash exposed skin promptly to remove accidental splashes or contact with this material.

Incompatibilities

Acids, Bases, Oxidizing materials

With strong oxidizers: Fire and explosion hazard.

Decomposition

May occur thermal decomposition. The decomposition products are

oxides of carbon, nitrogen

Polymerization

Not available

Se										

Toxicity Data

Oral toxicity (LD50): 1472 mg/kg (Rat)

HEALTH EFFECTS

Acute inhalation

Confusion.

Acute skin

May cause irritation and Skin rashes.

Acute Eye

Blurred vision

Acute ingestion

May cause nausea, anoroxea, Blurred vision, Dizziness.

Chronic Exposure

Lightheadedness, Gastrointestinal Discomfort

Chronic Toxicity

This product does not contain any substances that are considered by OSHA, NTP, IARC or ACGIH to be "probable"

or "suspected" human carcinogens.

Classification as per CLP

Regulation

Classified as

1. Acute Toxicity- Category 4

2. Specific Target Organ Toxicant-

Single Dose Exposure- Category 3 (STOT SE 3)

Section 12: Ecological Information

Environmental Hazards

No known significant effects or critical hazards.

Section 13: Disposal Considerations

Waste Disposal Method

Dispose in accordance with all applicable regulations.
