# **SAFETY DATA SHEETS**

# This SDS packet was issued with item:

078929360

The safety data sheets (SDS) in this packet apply to the individual products listed below. Please refer to invoice for specific item number(s).

078929353

# SAFETY DATA SHEET

# 1. Identification

Product identifier	Fluvac Innovator 5		
Other means of identification			
Synonyms	Fluvac Innovator® 5 * FLUVAC® INNOVATOR 5 * Encephalomyelitis-Rhinopneumonitis-Influenza Vaccine Eastern and Western, Killed Virus, Tetanus Toxoid		
Recommended use	Veterinary vaccine		
Recommended restrictions	Not for human use		
Manufacturer/Importer/Supplier/	Distributor information		
Company Name (US)	Zoetis Inc.		
	10 Sylvan Way		
	Parsippany, New Jersey 07054 (USA)		
Rocky Mountain Poison and Drug Center	1-866-531-8896		
Product Support/Technical	1-800-366-5288		
Services			
Emergency telephone numbers	CHEMTREC (24 hours): 1-800-424-9300		
	International CHEMTREC (24 hours): +1-703-527-3887		
Company Name (EU)	Zoetis Belgium S.A.		
	Mercuriusstraat 20		
	1930 Zaventem		
	Belgium		
Emergency telephone number	International CHEMTREC (24 hours): +1-703-527-3887		
Contact E-Mail	VMIPSrecords@zoetis.com		
2. Hazard(s) identification			
Physical hazards	Not classified.		
Health hazards	Not classified.		
Environmental hazards	Not classified.		
OSHA defined hazards	Not classified.		
Label elements			
Hazard symbol	None.		
Signal word	None.		
Hazard statement	The mixture does not meet the criteria for classification.		
Precautionary statement			
Prevention	Observe good industrial hygiene practices.		
Response	Wash hands after handling.		
Storage	Store away from incompatible materials.		
Disposal	Dispose of waste and residues in accordance with local authority requirements.		
Hazard(s) not otherwise classified (HNOC)	None known.		
Supplemental information	Direct contact with eyes may cause temporary irritation. In the event of accidental injection, an allergic reaction may occur. This product is an oil-adjuvanted suspension. Oil-adjuvant containing products may cause severe vasospasm following accidental injection.		

# 3. Composition/information on ingredients

#### **Mixtures**

Material name: Fluvac Innovator 5 2946 Version #: 01 Issue date: 04-16-2017

Chemical name	Common name and synonyms	CAS number	%
Squalene		111-02-4	<10
Formaldehyde		50-00-0	<0.1
Clostridium tetani toxoid		Not assigned	*
EASTERN EQUINE ENCEPHALOMYELITIS		Not Assigned	*
Equine Influenza Virus, Kentuc 97 (EIV)	ky	Not Assigned	*
Inactivated Equine Herpes virus type 1	3	Not Assigned	*
Inactivated Equine Herpes virus type 4	3	Not Assigned	*
Neomycin B		119-04-0	##
Polymyxin B		1404-26-8	##
Thimerosal		54-64-8	##
WESTERN EQUINE ENCEPHALOMYELITIS		Not Assigned	*
Composition comments	## Trace * Non-hazardous Ingredients In accordance with 29 CFR 1910.1200, the exact percentage composition of this mixture has b withheld as a trade secret.		
4. First-aid measures			
nhalation	Move to fresh air. Call a physician if symptor	ms develop or persist.	
Skin contact	In the case of skin contact, immediately wash the skin with plenty of soap and water. In the even of accidental self injection or needle stick injury, wash the injury thoroughly with clean running water. Get medical attention immediately.		
Eye contact	Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician. Remove contact lenses, if present and easy to do.		
ngestion	Rinse mouth. Call a physician or poison control center immediately. Only induce vomiting at the instruction of medical personnel. Never give anything by mouth to an unconscious person.		
Most important symptoms/effects, acute and lelayed	Direct contact with eyes may cause temporary irritation. Exposure may cause temporary irritation redness, or discomfort. In the event of accidental injection, an allergic reaction may occur. Sign and symptoms might include skin rash, itching, redness or swelling. Respiratory reactions may characterized by rhinitis, sneezing, scratchy throat, oral mucosal edema, laryngeal mucosal edema, coughing, shortness of breath, wheezing, and chest pain. Asthma like reactions occur with acute exposures in sensitized patients. This product is an oil-adjuvanted suspension. Oil-adjuvant containing products may cause severe vasospasm following accidental injection.		
ndication of immediate nedical attention and special reatment needed	Treat symptomatically. Where parenteral oil-adjuvanted vaccine exposure has occurred, the patient should be promptly evaluated for the development of vasospasm and/or compartment syndrome.		
General information	For personal protection, see section 8 of the SDS. Ensure that medical personnel are aware of material(s) involved, and take precautions to protect themselves.		
5. Fire-fighting measures			
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Car	rbon dioxide (CO2).	
Jnsuitable extinguishing nedia	Do not use water jet as an extinguisher, as this will spread the fire.		
Specific hazards arising from he chemical	During fire, gases hazardous to health may b	be formed.	
Special protective equipment	Self-contained breathing apparatus and full	protective clothing must be worr	n in case of fire.
and precautions for firefighters			
	Move containers from fire area if you can do	so without risk.	
and precautions for firefighters Fire fighting	Move containers from fire area if you can do Use standard firefighting procedures and co		lved materials.

#### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Avoid contact with eyes, skin, and clothing. Avoid breathing mist or vapor. Avoid accidental injection. Wash thoroughly after handling. When using, do not eat, drink or smoke. Wear personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store out of direct sunlight in dark, dry conditions. @ 2 - 7°C (36 - 45°F). Do not freeze. Store in original tightly closed container. Keep away from heat, sparks and open flame. Store away from incompatible materials (see Section 10 of the SDS).

# 8. Exposure controls/personal protection

#### **Occupational exposure limits**

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

Zoetis Components	Туре	Value	
Neomycin B (CAS 119-04-0)	TWA	100 μg/m3	
US. OSHA Specifically Regulated	Substances (29 CFR 1910.100	1-1050)	
Components	Туре	Value	
Formaldehyde (CAS 50-00-0)	STEL	2 ppm	
	TWA	0.75 ppm	
US. OSHA Table Z-2 (29 CFR 1910	).1000)		
Components	Туре	Value	
Thimerosal (CAS 54-64-8)	Ceiling	0.04 mg/m3	
	TWA	0.01 mg/m3	
US. ACGIH Threshold Limit Value	S		
Components	Туре	Value	
Formaldehyde (CAS 50-00-0)	Ceiling	0.3 ppm	
Thimerosal (CAS 54-64-8)	STEL	0.03 mg/m3	
	TWA	0.01 mg/m3	
US. NIOSH: Pocket Guide to Cher	nical Hazards		
Components	Туре	Value	
Formaldehyde (CAS 50-00-0)	Ceiling	0.1 ppm	
	TWA	0.016 ppm	
Thimerosal (CAS 54-64-8)	STEL	0.03 mg/m3	
	TWA	0.01 mg/m3	
ogical limit values No b	No biological exposure limits noted for the ingredient(s).		
osure guidelines			
US - California OELs: Skin desigr	nation		
Thimerosal (CAS 54-64-8)		be absorbed through the skin.	

US - Tennessee OELs: Skin o	designation		
Thimerosal (CAS 54-64-8)	Can be absorbed through the skin.		
US ACGIH Threshold Limit V	alues: Skin designation		
Thimerosal (CAS 54-64-8)	5		
US NIOSH Pocket Guide to C	hemical Hazards: Skin designation		
Thimerosal (CAS 54-64-8)	Can be absorbed through the skin.		
Control banding approach	Polymyxin B: Zoetis OEB 2 - Sensitizer (control exposure to the range of 100ug/m3 to < 1000ug/m3, provide additional precautions to protect from skin contact)		
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. General ventilation normally adequate.		
Individual protection measures, s	such as personal protective equipment		
Eye/face protection	If contact is likely, safety glasses with side shields are recommended.		
Skin protection			
Hand protection	Wear impervious gloves if skin contact is possible.		
Other	Wear suitable protective clothing. Use protective clothing (uniforms, lab coats, disposable coveralls, etc.) in both production and laboratory areas.		
Respiratory protection	No personal respiratory protective equipment normally required. In case of insufficient ventilation, wear suitable respiratory equipment. If the applicable Occupational Exposure Limit (OEL) is exceeded, wear an appropriate respirator with a protection factor sufficient to control exposures to below the OEL.		
Thermal hazards	Not applicable.		
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.		

# 9. Physical and chemical properties

Appearance	Suspension
Physical state	Liquid.
Form	Liquid.
Color	Pink
Odor	Not available.
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	Non-flammable
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or expl	osive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.

Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
10. Stability and reactivity	
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials. Sunlight. Store at 2-7°C. Prolonged exposure to higher

Incompatible materialsStrong oxidizing agents. This material can be denatured or inactivated by a variety of organic<br/>solvents, salts or heavy metals.Hazardous decompositionNo hazardous decomposition products are known.

# 11. Toxicological information

products

#### Information on likely routes of exposure

Inhalation	No adverse effects due to inhalation are expected.	
Skin contact Formaldehyde	Prolonged skin contact may cause temporary irritation. Species: Rabbit Severity: Moderate Severe	
<b>Eye contact</b> Thimerosal	Direct contact with eyes may cause temporary irritation. Species: Rabbit Severity: Mild	
Formaldehyde	Species: Rabbit Severity: Severe	
Ingestion	Expected to be a low ingestion hazard.	
Symptoms related to the physical, chemical and toxicological characteristics	Direct contact with eyes may cause temporary irritation. Exposure may cause temporary irritation, redness, or discomfort. In the event of accidental injection, an allergic reaction may occur. Signs and symptoms might include skin rash, itching, redness or swelling. Respiratory reactions may be characterized by rhinitis, sneezing, scratchy throat, oral mucosal edema, laryngeal mucosal edema, coughing, shortness of breath, wheezing, and chest pain. Asthma like reactions occur with acute exposures in sensitized patients.

Chronic effects	Prolonged inhalation may be harmful.			
Further information	Allergic reactions are possible. The antigens included in this product are non-infectious. All have been prepared from killed or inactivated preparations of microorganisms. This product is an oil-adjuvanted suspension. Oil-adjuvant containing products may cause severe vasospasm following accidental injection.			
12. Ecological informatior	า			
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Avoid release to the environment.			
Components		Species		Test Results
Formaldehyde (CAS 50-00-0)	)			
Aquatic				
Crustacea	EC50	Water flea (Da	phnia pulex)	4.3 - 7.8 mg/l, 48 hours

Bioaccumulative potential	No data ava	ailable.		
Mobility in soil	No data ava	ailable.		
Other adverse effects				depletion, photochemical ozone creation tial) are expected from this component.

# 13. Disposal considerations

Disposal instructions	Avoid release to the environment. Do not discharge into drains, water courses or onto the ground. Considering the relevant known environmental and human health hazards of the material, review and implement appropriate technical and procedural waste water and waste disposal measures to prevent occupational exposure and environmental release. It is recommended that waste minimization be practiced. The best available technology should be utilized to prevent environmental releases. This may include destructive techniques for waste and wastewater. This product contains trace quantities of mercury and may qualify as a RCRA Hazardous Waste. Status should be confirmed using the EPA Toxicity Characteristic Leaching Procedure (TCLP). Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company. This product contains trace quantities of mercury, releases to the environment should be avoided.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied.

## 14. Transport information

#### DOT

Not regulated as dangerous goods.

#### ΙΑΤΑ

Not regulated as dangerous goods.

# IMDG

Not regulated as dangerous goods.

# Transport in bulk according to<br/>Annex II of MARPOL 73/78 and<br/>the IBC CodeNot established.

## 15. Regulatory information
