

SAFETY DATA SHEETS

This SDS packet was issued with item:

078935386

N/A

A Safety Data Sheet is not required for this product according to OSHA Regulation 29CFR 1910.1200(g).

A hazard evaluation has been conducted on the constituents in this product in accordance with OSHA's Hazard Communication Standard, 29 CFR 1910.1200(d). It has been determined that the product is not a hazardous chemical, and does not pose a physical or health hazard according to the guidelines set by OSHA's Hazard Communication Standard.

MERCK VACCINE AGENT SUMMARY SHEET (VASS)

EquiNile™, Prestige® WNV

Health and Safety Summary Information

SECTION I – IDENTIFICATION

Organisms: Contains inactivated West Nile virus-flavirus chimera.

Characteristics: A combination of inactivated, concentrated, adjuvanted, tissue culture origin West Nile virus- flavivirus chimera.

Company Information:

Merck Animal Health
2 Giralda Farms, Madison, NJ 07940-1026
Customer Service: 800-521-5767
Order Desk: 800-648-2118
Technical Service (Companion Animal): 800-224-5318
Technical Service (Livestock: cows, pigs, poultry, aquaculture): 800-211-3573
Fax: 908-473-5560
Emergency Telephone Number: 1-908-423-6000 (24/7/365)

SECTION II - HAZARD IDENTIFICATION

Vaccine protects against: West Nile disease.

SECTION III - HEALTH HAZARDS

Special circumstances for workers:

Final vaccine product: There is no active toxin or live virus present. The vaccine is not infectious to humans or animals. Accidental injection via puncture or cuts can cause serious local reactions.

Live cultures: Workers handling live cultures shall utilize BSL-2 and BSL-2 Large Scale precautions.

EquiNile™, Prestige® WNV

Disclaimer

While this information and recommendations are believed to be accurate as of the date hereof, MERCK & CO, INC. makes no warranty with respect hereto and disclaims all liability from reliance thereon.

A Safety Data Sheet is not required for this product according to OSHA Regulation 29CFR 1910.1200(g).

A hazard evaluation has been conducted on the constituents in this product in accordance with OSHA's Hazard Communication Standard, 29 CFR 1910.1200(d). It has been determined that the product is not a hazardous chemical, and does not pose a physical or health hazard according to the guidelines set by OSHA's Hazard Communication Standard.

Inactivated cultures: Once the whole fermentation broth is formalin treated, there is no infectious or toxin risk. The inactivated toxins (toxoid) function as an antigen. Appropriate chemical safety precautions shall be taken while handling concentrated formalin and thimerosal.

SECTION IV - MEDICAL

Medical Surveillance: Not required.

SECTION V - RECOMMENDED PRECAUTIONS

Biological Containment: During manufacturing, BSL-2 and BSL-2 Large Scale precautions are taken to prevent employee and/or environmental contamination.

Once inactivated as part of the manufacturing process, there are no live organisms present. At this point, biosafety precautions are no longer needed.

SECTION VI - HANDLING INFORMATION

Spills:

Live cultures, including concentrated active toxin: Follow instructions found in your site biosafety risk assessment.

Inactivated cultures and toxins: The final formulated vaccine does not contain live organisms; therefore special biosafety spill procedures are not required. Spill cleanup is to be handled as per departmental SOP. If no SOP available, contain material using a spill pillow or absorbent material and dispose of according to departmental procedures. Soap and water can be used to clean up the area. Minimal personal protective equipment includes safety glasses, lab coat/work uniform, gloves and slip resistant shoe covers.
