Re: Product SDS

To our valued customers:

This letter is in response to your request for a Safety Data Sheet (SDS).

All Microflex and Ansell branded medical grade and non-medical single use and disposable glove products fall under the definition of 'articles' as described in 29 Code of Federal Regulations 1900.1200(c) as follows:

Article means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

As such, Microflex and Ansell branded medical grade and non-medical single use and disposable glove products are exempt from requiring an MSDS as described in 29 Code of Federal Regulations 1900.1200(b)(6)(v).

Please contact me directly if you have any further questions.

Sincerely,

Jennifer Singh
Associate Director, Scientific Affairs
Healthcare Global Business Unit
