SAFETY DATA SHEETS

This SDS packet was issued with item: 078936858

The safety data sheets (SDS) in this packet apply to the individual products listed below. Please refer to invoice for specific item number(s).

078928778 078937198 078937224 078938015 078944764 078944769 078944797 078945422 078945455 078945456 078945457 078950117 078950401

SECTION 1: IDENTIFICATION

| 1.1 Product identifier | | | | |
|---|--|--|--|--|
| Product name | Clavacillin® (amoxicillin and clavulanate potassium tablets), USP Veterinary Tablets | | | |
| Chemical name | lot Applicable | | | |
| Synonyms | Amoxicillin and clavulanate potassium tablets | | | |
| Chemical formula | Not Applicable | | | |
| Other means of identification | Not Available | | | |
| 1.2 Recommended use of the che | mical and restrictions on use | | | |
| Relevant identified uses | Oral tablet / antibiotic. For professional use only. Not for human use. | | | |
| 1.3 Details of the supplier of the substance or mixture | | | | |
| Registered company name (US) | Dechra Veterinary Products | | | |
| Address | 7015 College Blvd, Suite 525, Overland Park, KS 66211 USA | | | |
| Telephone | 866-933-2472 | | | |
| Fax | Not Available | | | |
| Email | Not Available | | | |
| 1.4 Emergency telephone numbers | | | | |
| Dechra (US) | 866-933-2472 | | | |

SECTION 2: HAZARD(S) IDENTIFICATION

| 2.1 Classification of NFPA 704 diamon | of the substance or mixture d | | | | |
|---------------------------------------|---|--|--|--|--|
| 2 0 | Note: The hazard category numbers found in GHS classification in section 2 of this SDSs are NOT to be used to fill in the NFPA 704 diamond. Blue = Health Red = Fire Yellow = Reactivity White = Special (Oxidizer or water reactive substances) | | | | |
| Classification | Classification Skin Corrosion/Irritation Category 2, Sensitization (Skin) Category 1, Serious Eye Damage/Eye Irritation Category 2A, Sensitization (Respiratory) Category 1, Specific Target Organ Toxicity - Single Exposure (Respiratory Tract Irritation) Category 3, Carcinogenicity Category 1A, Specific Target Organ Toxicity - Reneated Exposure Category 2 | | | | |
| 2.2 Label elements | | | | | |
| Hazard pictogram(s) | | | | | |
| Signal word | Danger | | | | |
| Hazard statement(s | | | | | |
| H315 | Causes skin irritation. | | | | |
| H317 | May cause an allergic skin reaction. | | | | |
| H319 | Causes serious eye irritation. | | | | |
| H334 | May cause allergy or asthma symptoms or breathing difficulties if inhaled. | | | | |
| H335 | May cause respiratory irritation. | | | | |
| H350 | May cause cancer. | | | | |
| H373 | May cause damage to organs through prolonged or repeated exposure. | | | | |
| Hazard(s) not other Not Applica | wise classified ble | | | | |
| Precautionary state | ement(s) Prevention | | | | |
| P201 | Obtain special instructions before use. | | | | |
| P260 | Do not breathe dust/fume. | | | | |
| P261 | Avoid breathing dust/fumes. | | | | |
| P271 | Use only outdoors or in a well-ventilated area. | | | | |
| P280 | Wear protective gloves, protective clothing, eye protection and face protection. | | | | |
| P284 | [In case of inadequate ventilation] wear respiratory protection. | | | | |
| P202 | Do not handle until all safety precautions have been read and understood. | | | | |
| P264 | Wash all exposed external body areas thoroughly after handling. | | | | |
| P272 | Contaminated work clothing must not be allowed out of the workplace. | | | | |
| Precautionary state | ement(s) Response | | | | |
| P304+P340 | IF INHALED: Remove person to fresh air and keep comfortable for breathing. | | | | |
| P308+P313 | IF exposed or concerned: Get medical advice/ attention. | | | | |
| P342+P311 | If experiencing respiratory symptoms: Call a POISON CENTER/doctor/physician/first aider. | | | | |
| P305+P351+P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy | | | | |
| | to do. Continue rinsing. | | | | |
| P312 | Call a POISON CENTER/doctor/physician/first aider/if you feel unwell. | | | | |
| P314 | Get medical advice/attention if you feel unwell. | | | | |
| P333+P313 | If skin irritation or rash occurs: Get medical advice/attention. | | | | |
| P337+P313 | If eye irritation persists: Get medical advice/attention. | | | | |
| P302+P352 | IF ON SKIN: Wash with plenty of water. | | | | |
| P332+P313 | It skin irritation occurs: Get medical advice/attention. | | | | |
| P362+P364 | I ake off contaminated clothing and wash it before reuse. | | | | |
| Precautionary state | ment(s) storage | | | | |
| P405 | Store locked up. | | | | |

| P403+P233 | P403+P233 Store in a well-ventilated place. Keep container tightly closed. | | | | |
|-------------------------------------|---|--|--|--|--|
| Precautionary statement(s) disposal | | | | | |
| P501 | Dispose of contents/container to authorised hazardous or special waste collection point in accordance | | | | |
| | with any local regulation. | | | | |

SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

3.1 Substances

See section below for composition of Mixtures.

| 3.2 Mixtures | | | | |
|--|------------|-------------------------------|--|--|
| CAS No. | % [weight] | Name | | |
| 61336-70-7 | 30-60 | amoxycillin trihydrate | | |
| 9004-34-6 | 30-60 | microcrystalline cellulose | | |
| 61177-45-5 | 10-30 | potassium clavulanate | | |
| 9063-38-1 | 1-10 | sodium starch glycolate | | |
| 557-04-0 | 1-10 | magnesium stearate | | |
| 9004-65-3 | <1 | hydroxypropyl methylcellulose | | |
| 7631-86-9 | <1 | colloidal silicon dioxide | | |
| 13463-67-7 | <1 | titanium dioxide | | |
| 25322-68-3 | <1 | polyethylene glycol 6000 | | |
| 14807-96-6 | <1 | talc_ | | |
| 51274-00-1 | <1 | iron oxide yellow | | |
| The exact percentage (concentration) of composition has been withheld as a trade secret. | | | | |
| SECTION 4: FIRST AID MEASURES | | | | |

| 4.1 Description | n of first aid measures | | | |
|--|--|--|--|--|
| Eye contact | If this product comes in contact with the eyes: wash out immediately with fresh running water. Ensure complete | | | |
| - | irrigation of the eve by keeping evelids apart and away from eve and moving the evelids by occasionally lifting | | | |
| | the upper and lower lids. Seek medical attention without delay; if pain persists or recurs seek medical attention. | | | |
| | Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. | | | |
| Skin contact | If skin contact occurs: immediately remove all contaminated clothing, including footwear. Flush skin and hair with running water (and soap if available). Seek medical attention in event of irritation. | | | |
| Inhalation | If fumes or combustion products are inhaled remove from contaminated area. Lay natient down. Keep warm | | | |
| initialation | and rested Prostheses such as false teeth, which may block airway, should be removed, where possible prior | | | |
| | to initiating first aid procedures. Apply artificial respiration if not breathing preferably with a demand value | | | |
| | to initiating instead proceedings, Apply antional respiration in the bleating, pictually with a domain valve | | | |
| | basication, bag-valve mask device, or pocket mask as trained. Fenomin CFK in necessary. Transport to | | | |
| | nospital, of doctor, without delay. | | | |
| Ingestion | If swallowed do NOT induce vomiting. If vomiting occurs, lean patient forward or place on left side (head-down | | | |
| | position, if possible) to maintain open airway and prevent aspiration. Observe the patient carefully. Never give | | | |
| | liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious. Give | | | |
| | water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink. Seek | | | |
| | medical advice. | | | |
| 4.2 Most important symptoms and effects, both acute and delayed | | | | |
| See section 11. | | | | |
| 4.3 Indication of immediate medical attention and special treatment needed | | | | |

Treat symptomatically.

SECTION 5: FIRE FIGHTING MEASURES

5.1 Extinguishing media

There is no restriction on the type of extinguisher which may be used. Use extinguishing media appropriate for surrounding fire.

5.2 Special hazards arising from the substance or mixture Fire incompatibility Avoid contamination with oxidising agents i.e. nitrates, oxidising acids, chlorine bleaches, pool chlorine etc. as ignition may result. 5.3 Special protective actions for fire-fighters: Firefighting Alert Fire Brigade and tell them location and nature of hazard. Wear breathing apparatus plus protective gloves in the event of a fire. Prevent, by any means available, spillage from entering drains or water courses. Use firefighting procedures suitable for surrounding area. DO NOT approach containers suspected to be hot. Cool fire exposed containers with water spray from a protected location. If safe to do so, remove containers from path of fire. Equipment should be thoroughly decontaminated after use. Fire / explosion Solid which exhibits difficult combustion or is difficult to ignite. Avoid generating dust, particularly clouds of dust in a confined or unventilated space as dusts may form an explosive mixture with air, and any hazard source of ignition, i.e. flame or spark, will cause fire or explosion. Explosion may emit poisonous/corrosive fumes. When heated to extreme temperatures, (>1700°C) amorphous silica can fuse.

SECTION 6: ACCIDENTAL RELEASE MEASURES

| 6.1 | Personal precautions, protective equipment and emergency procedures |
|-----|---|
| | See section 8. |
| 6.2 | Environmental precautions |
| | See Section 12. |

| 6.3 Methods and mate | erial for containment and cleaning up |
|------------------------|--|
| Minor spills | Clean up waste regularly and abnormal spills immediately. Avoid breathing dust and contact with skin |
| | and eyes. Wear protective clothing, gloves, safety glasses and dust respirator. Use dry clean up |
| | procedures and avoid generating dust. Vacuum up or sweep up. NOTE: Vacuum cleaner must be fitted |
| | with an exhaust micro filter (H-Class HEPA type) (consider explosion-proof machines designed to be |
| | grounded during storage and use). H-Class HEPA filtered industrial vacuum cleaners should NOT be |
| | used on wet materials or surfaces. Dampen with water to prevent dusting before sweeping. Place in |
| | suitable containers for disposal. |
| Major spills | Moderate hazard. |
| | CAUTION: Advise personnel in area. Alert Emergency Services and tell them location and nature of |
| | hazard. Control personal contact by wearing protective clothing. Prevent, by any means available, |
| | spillage from entering drains or water courses. Recover product wherever possible. |
| | IF DRY: Use dry clean up procedures and avoid generating dust. Collect residues and place in sealed |
| | plastic bags or other containers for disposal. IF WET: Vacuum/shovel up and place in labelled containers |
| | for disposal. ALWAYS: Wash area down with large amounts of water and prevent runoff into drains. |
| | If contamination of drains or waterways occurs, advise Emergency Services. |
| Developed Destanting C | nuinment eduine is contained in Conting 0 of the CDC |

Personal Protective Equipment advice is contained in Section 8 of the SDS.

SECTION 7: HANDLING AND STORAGE

| 7.1 Precautions fo | r safe handling |
|--------------------|--|
| Safe handling | Avoid all personal contact, including inhalation. Wear protective clothing when risk of exposure occurs. Use |
| - | in a well-ventilated area. Prevent concentration in hollows and sumps. DO NOT enter confined spaces |
| | until atmosphere has been checked. DO NOT allow material to contact humans, exposed food or food |
| | utensils. Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep |
| | containers securely sealed when not in use. Avoid physical damage to containers. Always wash hands |
| | with soap and water after handling. Work clothes should be laundered separately. Launder contaminated |
| | clothing before re-use. Use good occupational work practice. Observe manufacturer's storage and |
| | handling recommendations contained within this SDS. |
| Other information | Store in original containers. Keep containers securely sealed. Store in a cool, dry area protected from |
| | environmental extremes. Store away from incompatible materials and foodstuff containers. Protect |
| | containers against physical damage and check regularly for leaks. |
| | For major quantities: Consider storage in bunded areas - ensure storage areas are isolated from sources |
| | of community water (including stormwater, ground water, lakes and streams). Ensure that accidental |
| | discharge to air or water is the subject of a contingency disaster management plan; this may require |
| | consultation with local authorities. |
| 7.2 Conditions for | safe storage, including any incompatibilities |
| Suitable container | Tablets are packaged in foil strip packs. Glass container is suitable for laboratory quantities Polyethylene |
| | or polypropylene container. Check all containers are clearly labelled and free from leaks. |
| Storage | Protect from direct sunlight. Do not freeze. Store at 20° to 25°C (68° to 77°F), excursions permitted |
| incompatibility | between 15° and 30°C (between 59° and 86°F). |
| | Avoid strong acids, bases and oxidizing agents. |

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

| 8.1 Control parameters | | | | | | | |
|---|------------|---|------------------------------------|------------------|------------------|------------------|--|
| Occupational Exposure Limits (OEL) | | | | | | | |

| | | Rating | | | |
| amoxicillin trihydrate | | E | ≤ 0.01 mg/m³ | | |
| potassium clavulanate | | E | ≤ 0.01 mg/m³ | | |
| Occupational exposure band chemical's potency and the occupational exposureband (worker health | ing is a proc adverse heal OEB), which c | ess of assigning chemicals into spe th outcomes associated with exposu orresponds to a range of exposure con | cific categories or bands based on a ire. The output of this process is an icentrations that are expected to protect | | |
| 8.2 Exposure controls | | | | | |
| Appropriate engineering | Avoid creatir | g or spreading dust. Ensure adequate | ventilation, especially in confined areas. | | |
| controls | Emergency | eye wash fountains and safety showe | rs should be available in the immediate | | |
| Dana an al anna fa atlan | vicinity of any | potential exposure. Ensure all national | llocal regulations are observed. | | |
| Personal protection | | | | | |
| Eye and face protection | When handling very small quantities of the material eye protection may not be required. For | | | | |
| | laboratory, larger scale or bulk handling or where regular exposure in an occupational setting | | | | |
| | occurs wear chemical goggles with side-shields. Contact lenses may pose a special hazard; | | | | |
| | son contact lenses may absorb and concentrate irritants. A written policy document, describing | | | | |
| Skin and body protection | Une wearing or renses of restrictions on use, Wear auticable protective electrica if aking contect with drug product is possible. One liter | | | | |
| Skin and body protection | protection at | oove | nui uiug product is possible. See Haliu | | |
| Hand/feet protection | The material | may produce skin sensitization in pred | isposed individuals. Care must be taken | | |
| nana/leet proteotion | when remov | ing gloves and other protective equip | ment, to avoid all possible skin contact. | | |
| | Contaminated leather items, such as shoes, belts and watch-bands should be removed and | | | | |
| | destroyed. Select gloves tested to a relevant standard (e.g. Europe EN 374. US F739. AS/NZS | | | | |
| | 2161.1 or national equivalent). | | | | |
| Other protection | For up to 500 | g a laboratory coat may be suitable. F | or up to 1 kg a disposable laboratory coat | | |
| | or coverall of low permeability is recommended. Coveralls should be buttoned at collar and | | | | |
| | cuffs. For over 1 kg and manufacturing operations, wear disposable coverall of low | | | | |
| | permeability | and disposableshoe covers. Eye was | h unit and ready access to an emergency | | |
| | shower. For | Emergencies: Vinyl suit | | | |
| Respiratory protection | Type -P Filte | r of sufficient capacity. (AS/NZS 1716 | & 1715, EN 143:2000 & 149:2001, ANSI | | |
| | ∠88 or natio | onal equivalent). If exposure limits are exceeded or irritation is experienced, | | | |
| | ventilation and excavation may be required. | | | | |

| SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES | | | | |
|---|--|--|--|--|
| 9.1 Information on basic physical and chemical properties | S | | | |
| Appearance: Yellowish tablets | Vapor density: Not Available | | | |
| Physical state: Solid | Auto ignition temperature (°C): Not Available | | | |
| Odor: Not Available | Decomposition temperature (°C): Not Available | | | |
| Odor threshold: Not Available | Viscosity (°C): Not Available | | | |
| pH (as supplied): Not Available | Explosive properties: Not Available | | | |
| Melting point / freezing point (°C): Not Available | Oxidizing properties: Not Available | | | |
| Initial boiling point and boiling range: Not Available | Partition coefficient: Not Available | | | |
| Flash point (°C): Not Available | Molecular weight: Not Available | | | |
| Evaporation rate: Not Available | Taste: Not Available | | | |
| Flammability: Not Available | Surface tension: Not Available | | | |
| Upper/lower flammability or explosive limits: Not Available | Volatile component (%vol): Not Available | | | |
| Vapor pressure: Not Available | Gas group: Not Available | | | |
| Relative density (Water = 1): Not Available | pH as a solution: Not Available | | | |
| Solubility in water (mg/l): Immiscible | VOC g/L: Not Available | | | |
| | Specific gravity @ 20°C (water = 1): Not Available | | | |

| SECTION 10: STABILITY AND REACTIVITY | | | |
|--------------------------------------|---|--|--|
| Reactivity | See Section 7 | | |
| Chemical stability | Unstable in the presence of incompatible materials. Product is considered stable. | | |
| | Hazardous polymerization will not occur. | | |
| Possibility of hazardous reactions | See Section 7 | | |
| Conditions to avoid | See Section 7 | | |
| Incompatible materials | See Section 7 | | |
| Hazardous composition | See Section 5 | | |

| SECTION 11: TOXICOLOGICAL INFORMATION | | | | | |
|---|---|---|--|-------------------|--|
| 11.1 Information on toxicol | 1.1 Information on toxicological effects | | | | |
| Inhaled | Inhalation of vapors or aerosols (mists, fumes), generated by the material during the course of normal handling, may be damaging to the health of the individual. | | | | |
| Ingestion | Accidental ingestion of the material may be damaging to individual's health. | | | | |
| Skin contact | The liquid may be mis | cible with fats or oi | Is and may degrease the skin, producing | a skin reaction | |
| | described as non-allergic contact dermatitis. The material is unlikely to produce an irritan | | | | |
| | dermatitis as described in EC Directives Open cuts, abraded or irritated skin should not be | | | | |
| | exposed to this material. Entry into the blood-stream through, for example, cuts, abrasions, | | | | |
| Eve | Evidence exists or | r practical experi | ence predicts that the material eit | ther produces | |
| | inflammation of the skin in a substantial number of individuals following direct contact, and/o produces significant inflammation when substantial number of individuals following direct contact, and/o | | | contact, and/or | |
| Chronic | Evidence exists, or p | ractical experience | e predicts, that the material may cause | eve irritation in | |
| | a substantial number | r of individuals and | /or may produce significant ocular lesion | ons. | |
| Clavacillin (amoxicillin | Toxicity | | Irritation | | |
| and clavulanate potassium tablets) USP Veterinary Tablets | Not Available | | Not Available | | |

SECTION 13: DISPOSAL CONSIDERATIONS

| 13.1 Waste treatment methods | | | |
|------------------------------|---|--|--|
| Product/packaging | Containers may still present a chemical hazard/danger when empty. Return to supplier for reuse/ | | |
| disposal | recycling if possible. Otherwise: If container cannot be cleaned sufficiently well to ensure that | | |
| - | residuals do not remain or if the container cannot be used to store the same product, then puncture | | |
| | containers, to prevent re-use, and bury at an authorised landfill. Where possible retain label warnings | | |

| and SDS and observe all notices pertaining to the product. DO NOT allow wash water from cleaning or process equipment to enter drains. It may be necessary to collect all wash water for treatment |
|---|
| before disposal. In all cases disposal to sewer may be subject to local laws and regulations and these should be considered first. Where in doubt contact the responsible authority. |

SECTION 14: TRANSPORT INFORMATION

Labels required

Marine pollutant NO

Shipping container and transport vehicle placarding and labeling may vary from the below information. Products that are regulated for transport will be packaged and marked as Dangerous Goods in Excepted Quantities according to US DOT, IATA and IMDG regulations. In case of reshipment, it is the responsibility of the shipper to determine the appropriate labels and markings in accordance with applicable transport regulations.

Land transport (DOT): NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

Air transport (ICAO-IATA / DGR): NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

Sea transport (IMDG-Code / GGVSee): NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

Transport in bulk according to Annex II of MARPOL and the IBC code

| Not Applicable | | | |
|--|----------------------------------|--|--|
| Transport in bulk in accordance with MARPOL Annex V and the IMSBC Code | | | |
| Product name | Group | | |
| | Not Available for any ingredient | | |
| Transport in bulk in accordance with ICG Code | | | |
| Product name | Group | | |
| Not Available for any ingredient | | | |
| | | | |

SECTION 15: REGULATORY INFORMATION

15.1 Safety, health and environmental regulations / legislation specific for thesubstance or mixture

Product regulated by FDA as a veterinary product.

amoxicillin trihydrate is found on the following regulatory lists Not applicable

microcrystalline cellulose is found on the following regulatory lists

International WHO List of Proposed Occupational Exposure Limit (OEL) Values for Manufactured Nanomaterials (MNMS). US - Alaska Air Quality Control - Concentrations Triggering an Air Quality Episode for Air Pollutants Other Than PM-2, US -Massachusetts - Right To Know Listed Chemicals, US NIOSH Recommended Exposure Limits (RELs), US OSHA Permissible Exposure Limits (PELs) Table Z-1, US OSHA Permissible Exposure Limits (PELs) Table Z-3, US Toxic Substances Control Act (TSCA) - Chemical Substance Inventory

potassium clavulanate is found on the following regulatory lists Not applicable

sodium starch glycolate is found on the following regulatory lists

US TSCA - Chemical Substance Inventory

magnesium stearate is found on the following regulatory lists

International WHO List of Proposed OEL MNMS, US - Alaska Air Quality Control - Concentrations Triggering an Air Quality Episode for Air Pollutants Other Than PM-2, US - Massachusetts - Right To Know Listed Chemicals, US NIOSH RELS, US OSHA PELs Table Z-1, US OSHA PELs Table Z-3, US TSCA - Chemical Substance Inventory

hypromellose E5 is found on the following regulatory lists US TSCA - Chemical Substance Inventory

colloidal silicon dioxide is found on the following regulatory lists

Chemical Footprint Project - Chemicals of High Concern List, International Agency for Research on Cancer (IARC) - Agents Classified by the IARC Monographs, MMMS, US - California - Biomonitoring - Priority Chemicals, US - California Proposition 65 - Carcinogens, US - California Safe Drinking Water and Toxic Enforcement Act of 1986 - Proposition 65 List, US - Massachusetts - Right To Know Listed Chemicals, US DOE Temporary Emergency Exposure Limits (TEELs), US NIOSH Carcinogen List, RELs, US OSHA Carcinogens Listing, PELs Table Z-1, PELs Table Z-3, US TSCA - Chemical Substance Inventory, US TSCA Chemical Substance Inventory - Interim List of Active Substances

titanium dioxide is found on the following regulatory lists

Chemical Footprint Project - Chemicals of High Concern List, International Agency for Research on Cancer (IARC) - Agents Classified by the IARC Monographs, International Agency for Research on Cancer (IARC) - Agents Classified by the IARC Monographs - Group 2B: Possibly carcinogenic to humans , MMMS, US - California Proposition 65 - Carcinogens, US -California Safe Drinking Water and Toxic Enforcement Act of 1986 - Proposition 65 List, US - Massachusetts - Right To Know Listed Chemicals, TLV, TLV - Carcinogens, TLV - Notice of Intended Changes, US DOE TEELS, US List of Active Substances Exempt from the TSCA Inventory Notifications (Active-Inactive) Rule, US NIOSH Carcinogen List, RELs, PELs Table Z-1, PELs Table Z-3, US TSCA - Chemical Substance Inventory, US TSCA Chemical Substance Inventory - Interim List of Active Substances

polyethylene glycol 6000 is found on the following regulatory lists

US AIHA Workplace Environmental Exposure Levels (WEELs), TEELs, US TSCA - Chemical Substance Inventory, US Toxicology Excellence for Risk Assessment (TERA) Workplace Environmental Exposure Levels (WEEL), US TSCA

SECTION 16: OTHER INFORMATION

Initial date: June 2023 – Classification, Product name updated from Clavacillin™ (amoxicillin trihydrate/clavulanate potassium) Veterinary Tablets to Clavacillin® (amoxicillin and clavulanate potassium tablets), USP Veterinary Tablets

Classification of the preparation and its individual components has drawn on official and authoritative sources as well as independent review by the Chemwatch Classification committee using available literature references. The SDS is a Hazard Communication tool and should be used to assist in the Risk Assessment. Many factors determine whether the reported Hazards are Risks in the workplace or other settings. Risks may be determined by reference to Exposures Scenarios. Scale of use, frequency of use and current or available engineering controls must be considered.
