# **SAFETY DATA SHEETS**

This SDS packet was issued with item: 078377097

The safety data sheets (SDS) in this packet apply to the individual products listed below. Please refer to invoice for specific item number(s).

078377444 078377873

# MATERIAL SAFETY DATA SHEET

### 1

# PRODUCT AND COMPANY IDENTIFICATION

**Product Name:** Bar-Vac® 7 **Product No.:** Not applicable MSDS ID#: B7410.00 **GHS Product Identifier:** Not applicable

Molecular Formula: Mixture, not applicable Molecular Weight: Not applicable CAS Number: Mixture, not applicable Chemical Family: Vaccine

### **Manufacturer:**

Boehringer Ingelheim Vetmedica, Inc. 2621 North Belt Hwy St. Joseph, MO 64506-2002

**Transportation Emergency:** For Chemical Emergency Spill, Leak, Fire, Exposure, or Accident Call CHEMTREC Day or Night

Within USA and Canada: 1-800-424-9300 Outside USA and Canada: +1 703-527-3887 (collect calls accepted)

### Medical Emergency (24HR): (866) 638-2226 Non-Emergency Telephone: (800) 821-7467

Intended Use: Recommended for the vaccination of healthy, susceptible cattle and sheep against disease caused by Clostridium chauvoei, Cl. novyi, Cl. sordellii and Clostridium perfringens Types C and D.

# **HAZARDS IDENTIFICATION**

### **Emergency Overview**

2

Physical State: Deactivated bacterin/toxoids in liquid saline solution, packaged in 50mL bottle. **Color:** Brown opaque **Odor:** No data available

### **DANGER!**

Contains a component that may cause cancer. Allergic reactions can occur. In vaccines, chronic exposure potential is not expected. For use in cattle and sheep only. Not for human use.

### **Precautionary Statements**

### **Prevention:**

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required.

### **Response:**

If exposed or concerned: Get medical advice/attention.

### Storage:

Store locked up.

### **Disposal:**

Dispose of contents/container according to applicable federal and local regulations.

### Additional statements:

Keep only in original container. Keep at a temperature between 2 - 7°C. Do not freeze. Accidental human injection can cause serious local reactions or anaphylactic reaction and systemic effects. Avoid contact with eyes, skin and clothing. Wash thoroughly with soap and water after handling. Wear suitable gloves and eye/face protection. Spills: Cover with absorbent or contain. Collect and incinerate. If swallowed, seek medical advice immediately and show this container or label. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible). Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Keep out of reach of children. Keep away from food, drink, and animal feedstuffs.

### **Potential Health Effects**

Inhalation: Not expected to be an inhalation hazard with prescribed use.

**Eye Contact:** Not expected to be a hazard to the eye with prescribed use. Exposure to liquid in eye may cause mild transient eye irritation.

**Skin Contact:** Not expected to be a hazard to the skin. Can cause hypersensitive reactions. May cause skin sensitization by contact.

**Ingestion:** Not expected to be an ingestion hazard with prescribed use. Ingestion may cause nausea and systemic effects.

Injection: Swelling at injection site may occur.

**Chronic Health Effects:** Possible hypersensitization (development of abnormal sensitivity). Contains formaldehyde and phenol. Formaldehyde has a carcinogenic potential and is a known skin and respiratory sensitizer. Phenol has been shown to be mutagenic or fetotoxic in animals. In vaccines, the chronic exposure potential is negligible.

### Target Organ(s): Skin

3

### OSHA Regulatory Status: Hazardous (Exempt)

Environment: No data available

# **COMPOSITION / INFORMATION ON INGREDIENTS**

Chemical Name	EC No.	CAS- No.	Concentration	Classification	Notes
<i>Clostridium chauvoei</i> bacterin-toxoid - deactivated			proprietary		
<i>Clostridium septicum</i> bacterin-toxoid - deactivated			proprietary		
<i>Clostridium novyi</i> bacterin-toxoid - deactivated			proprietary		
Clostridium sordellii bacterin-toxoid - deactivated			proprietary		
<i>Clostridium</i> <i>perfringens Type C</i> bacterin-toxoid - deactivated			proprietary		
<i>Clostridium</i> <i>perfringens Type D</i> bacterin-toxoid - deactivated			proprietary		
Formaldehyde	200-001-8	50-00-0	0.5 - 0.9 %	T; C; C3 R23/24/25, R34, R40, R43	*
Phenol	203-632-7	108-95-2	0.5 %	T, C; M3 R23/24/25, R34, R48/20/21/22, R68	*

\* Used to inactivate virus and subsequently removed from solution. Concentration represents maximum remaining amount by percent weight which is below USDA allowable limits.

The full texts for all R-Phrases are displayed in Section 16, if applicable.

# 4 FIRST AID MEASURES

# General: Animals or persons developing anaphylactic (life-threatening) reactions, such as difficulty in breathing or unconsciousness, must receive immediate medical attention.

Inhalation: Move to fresh air. Treat symptomatically. Get medical attention if symptoms persist.

**Eye Contact:** Any material that contacts the eye should be washed out immediately with water. If easy to do, remove contact lenses. Get medical attention if symptoms persist.

**Skin Contact:** In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. If skin irritation or rash occurs, seek medical advice. Wash contaminated clothing before reuse.

**Ingestion:** Call a physician or poison control center immediately. Only induce vomiting at the instruction of medical personnel. Never give anything by mouth to an unconscious person.

**Injection:** In case of accidental injection, wash the site thoroughly. Contact a physician immediately.

Note to Physician: For animal injection only. Not for human use.

### 5 FIRE-FIGHTING MEASURES

**Extinguishing Media:** Extinguish with foam, carbon dioxide, dry powder and water fog or material appropriate for surrounding fire.

Unsuitable Extinguishing Media: None known

**Special Fire Fighting Procedures:** Wear self-contained breathing apparatus and protective clothing.

Unusual Fire & Explosion Hazards: None known

Hazardous Combustion Products: Carbon monoxide, carbon dioxide, nitrogen oxides

### 6 ACCIDENTAL RELEASE MEASURES

Personal Precautions: Wear appropriate personal protective equipment (See Section 8).

**Spill Cleanup Methods:** STEPS TO BE TAKEN IF SIGNIFICANT QUANTITIES OF PRODUCT IS SPILLED: Absorb or cover with dry earth, sand or other non-combustible material. Place spillage in appropriate container for waste disposal. Wash contaminated clothing before use.

**Environmental Precautions:** Prevent runoff from entering drains, sewers or streams. Dike for later disposal.

**Exposure Limits:** 

# 7 HANDLING AND STORAGE

**Handling:** HANDLING SIGNIFICANT QUANTITIES OF PRODUCT: Avoid contact with eyes, skin or clothing. Avoid accidental injection. Wash hand thoroughly after handling.

**Storage:** Store at 2°-7° C (35°-45° F). Do not freeze. Store out of direct sunlight to protect product integrity. Shake well before using.

# 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

Chemical Name	Source	Туре	Exposure Limits	Notes
Formaldehyde	ACGIH	Ceiling	0.3 ppm	Sensitizer,
		Exposure	* *	Suspected
		Limit		cancer hazard,
				Upper
				respiratory and
	0.077.4			eye irritation
Formaldehyde	OSHA	Action	0.5 ppm	Cancer-suspect
		Level		agent
Formaldehyde	OSHA	TWA	0.75 ppm	
Formaldehyde	OSHA	STEL	2 ppm	
Phenol	ACGIH	TWA	5 ppm	Upper
				respiratory
				irritation; Lung
				damage; CNS
				Impairment
Phenol	OSHA	PEL	5 ppm	Skin
				designation

### Where lower governmentally imposed exposure limits exist, such limits should take precedence.

**Engineering Controls:** Not generally required when handling vials or containers. Good ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

**Respiratory Protection:** Not generally required when handling vials or containers. If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. In the United States of America, if respirators are used, a program should be instituted to assure compliance with OSHA standard 63 FR 1152, January 8, 1998. Respirator type: NIOSH approved organic vapor respirator.

# Europe: Wear appropriate personal protective equipment according to the Council Directive 89/686/EEC (4) and the appropriate CEN standards.

**PERSONAL PROTECTIVE EQUIPMENT:** Not generally required when handling containers. If containers are compromised or exposure to the mixture is likely wear:

9

Eye Protection: Wear safety glasses with side shields (or goggles).

Hand Protection: Wear suitable gloves.

Skin Protection: Wear lab coat, apron or appropriate clothing to prevent skin contact.

Hygiene Measures: Eye bath, washing facilities

### PHYSICAL AND CHEMICAL PROPERTIES

Color: Brown opaque **Odor:** No data available Odor Threshold: No data available Physical State: Deactivated bacterin/toxoids in liquid saline solution, packaged in 50mL bottle. **pH**: No data available Melting Point: No data available Freezing Point: No data available **Boiling Point:** No data available Flash Point: No data available Flammability Limit – Upper (%): No data available Flammability Limit – Lower (%): No data available **Evaporation rate:** No data available Vapor Pressure: No data available Vapor Density (Air=1): No data available Specific Gravity: No data available **Solubility:** No data available Partition Coefficient (n-Octanol/water): No data available Autoignition Temperature: Not applicable **Decomposition Temperature:** No data available

### **10 STABILITY AND REACTIVITY**

Stability: Stable

**Conditions to Avoid:** Temperatures below 2° C (35° F)

**Incompatible Materials:** Strong oxidizing agents

Hazardous Decomposition Products: Nitrogen oxides

Possibility of Hazardous Reactions: Will not occur.

### 11

# TOXICOLOGICAL INFORMATION

Bar-Vac® 7 is considered non-toxic.

### **Specified Substances**

**Acute Toxicity** 

Chemical Name	Test Results				
Formaldehyde	Administration into the eye (rabbit): 750 ug, Severe Irritant				
	Administration onto the skin (rabbit): 2 mg/24 h, Severe Irritant				
	Oral LD50 (rat): 800 mg/kg				
	Dermal LD50 (rabbit): 630 mg/kg				
	Inhalation LC50 (rat): 0.48 mg/l/4 hours				
Phenol	Administration into the eye (rabbit): 5 mg, Severe Irritant				
	Administration onto the skin (rabbit): 500 mg/24 h, Severe				
	Irritant				
	Oral LD50 (rat): 317 mg/kg				
	Dermal LD50 (rabbit): 630 mg/kg				
	Inhalation LC50 (rat): 316 mg/m3/4h				

**Chronic Toxicity** – Possible hypersensitization (development of abnormal sensitivity). Contains formaldehyde and phenol. Formaldehyde has a carcinogenic potential and is a known skin and respiratory sensitizer. Phenol has been shown to be mutagenic or fetotoxic in animals. In vaccines, the chronic exposure potential is negligible.

	to humans			Carcinogen

### 12

# ECOLOGICAL INFORMATION

Ecotoxicity: No data available Persistence and degradability: No data available Mobility in soil: No data available Other adverse effects: No data available

**Germany WGK:** Phenol: ID No: 170; Class 2: water-endangering. Formaldehyde: ID No: 112; Class 2: water-endangering.

# 13 DISPOSAL CONSIDERATIONS

**General Information:** Dispose of in accordance with local, state, federal, national or international regulations.

**Disposal Methods:** No specific disposal method required. Do not empty into drains. Dispose of this material and its container in a safe way. Do not contaminate water, food, or feed by disposal.

RCRA Information: Not applicable

**<u>DOT</u>**: Not regulated

TDG: Not regulated

# ADR/RID: Not regulated

**IATA**: Not regulated

# **IMDG**: Not regulated

# 15 **REGULATORY INFORMATION**

**Canadian Controlled Products Regulations:** This product has been classified according to the hazard criteria of the Canadian Controlled Products Regulations, Section 33, and the MSDS contains all required information.

### WHMIS Classification: D/2/A, Exempt

### **Inventory Status**

This material is **not** listed on the following inventories: TSCA, DSL, AICS, EINECS, IECSC, ENCS, PICCS, KECI, and NZIoC. Therefore, it can only be used for TSCA exempt purposes such as R&D or veterinary use.

Canada CEPA Schedule 1 - Formaldehyde

### **US Regulations**

# FEDERAL LAW RESTRICTS THIS DRUG TO USE BY OR ON ORDER OF LICENSED VETERINARIANS.

### CERCLA Hazardous Substance List (40 CFR 302.4):

Non-Emergency calls:	(800) 821-7467

# 2. Hazard(s) identification

Physical hazards	Not classified.	
Health hazards	Sensitization, skin	Category 1
	Carcinogenicity	Category 1A
OSHA defined hazards	Not classified.	
Label elements		
	$\wedge$	

Signal word	Danger
Hazard statement	May cause cancer. May cause an allergic skin reaction.
Precautionary statement	
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves/protective clothing/eye protection/face protection.
Response	If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse. If exposed or concerned: Get medical advice/attention.
Storage	Store away from incompatible materials. Keep at a temperature between 2 - 7°C Do not freeze. Store locked up.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

# 3. Composition/information on ingredients

### **Mixtures**

Chemical name		CAS number	%

Eye contact	Rinse with water. Get medical attention if irrita	ation develops and persists	
ngestion	Rinse mouth. If ingestion of a large amount de	oes occur, call a poison cor	ntrol center immediatel
Most important symptoms/effects, acute and delayed	May cause an allergic skin reaction. Dermatiti vomiting, nausea, dizziness, drowsiness and		e quantity may cause
ndication of immediate medical attention and special treatment needed	Provide general supportive measures and tre Symptoms may be delayed. Not for human us developing anaphylactic (life threatening) rea unconsciousness, must receive immediate me	se. For use in cattle and sw ctions, such as difficulty in l	ine only. Persons
General information	IF exposed or concerned: Get medical advice/attention. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.		
5. Fire-fighting measures			
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carb	on dioxide (CO2).	
Jnsuitable extinguishing nedia	None known.	. ,	
Specific hazards arising from the chemical	During fire, gases hazardous to health may be	e formed.	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full p	rotective clothing must be v	vorn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do s	so without risk.	
Specific methods	Use standard firefighting procedures and con-	sider the hazards of other i	nvolved materials.
General fire hazards	No unusual fire or explosion hazards noted.		
6. Accidental release meas	ures		

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Should be handled in closed systems, if possible. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store locked up. Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS). Store away from foodstuffs. Store in the dark at 2°C to 7°C (35°F to 45°F). Avoid freezing. Shake Well. Protect from direct sunlight.

Thermal hazards

General hygiene considerations

Wear appropriate thermal protective clothing, when necessary.

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

### 9. Physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Deactivated bacterin/toxoids in liquid saline solution, packaged in 50mL bottle.
Color	Opaque Brown
Odor	No data available.
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
10. Stability and reactivity	
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials. Excessive heat. Keep from freezing.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	Carbon monoxide (CO). Carbon dioxide (CO2). Nitrogen oxides (NOx).
11 Toxicological informat	ion

# 11. Toxicological information

### Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	May cause an allergic skin reaction.
Eye contact	Direct contact with eyes may cause temporary irritation.

Bar-Vac® 7

Expected to be a low ingestion hazard.	
--	--

Symptoms related to the physical, chemical and toxicological characteristics

Ingestion

Acute toxicity

May cause an allergic skin reaction. Dermatitis. Rash. Ingestion of a large quantity may cause vomiting, nausea, dizziness, drowsiness and other systemic effects.

### Information on toxicological effects

May cause allergic respiratory and skin reactions.

Acute toxicity	way cause allergic respire

ersistence and degradability ioaccumulative potential	No data is available on the degradability of this product.		

Partition coefficient n-octar Formaldehyde* (CAS 50-00-0	
Mobility in soil	Expected to be slightly to moderately mobile in soil.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
13. Disposal consideration	ns
Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is

### 14. Transport information

### DOT

Not regulated as dangerous goods.

### IATA

Not regulated as dangerous goods.

### IMDG

Not regulated as dangerous goods.

Transport in bulk according to Not established. Annex II of MARPOL 73/78 and the IBC Code

### 15. Regulatory information

US federal regulations

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. One or more components are not listed on TSCA. Therefore, it can only be used for TSCA exempt purposes such as R&D or veterinary use. FEDERAL LAW RESTRICTS THIS DRUG TO USE BY OR ON ORDER OF LICENSED VETERINARIANS.

### TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

### OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

emptied.

Formaldehyde\* (CAS 50-00-0)

### Cancer Skin sensitization Respiratory sensitization Eye irritation Skin irritation respiratory tract irritation Acute toxicity Flammability

### CERCLA Hazardous Substance List (40 CFR 302.4)

Formaldehyde\* (CAS 50-00-0)

LISTED

### Superfund Amendments and Reauthorization Act of 1986 (SARA)

### Hazard categories

Immediate Hazard - Yes Delayed Hazard - Yes Fire Hazard - No Pressure Hazard - No Reactivity Hazard - No
