Global Safety

This letter is in response to your request for a Material Safety Data Sheet (MSDS) for the following Veterinary Biological products manufactured by Colorado Serum Company under the subtitle Professional Biological Company, a solely owned subsidiary of Colorado Serum Company:

**A) All requested products by Webster Veterinary Supply**

The Denver Regional Office of OSHA was contacted to determine if Colorado Serum Company is required to provide an MSDS upon customer request. The OSHA Regional Office subsequently informed Colorado Serum Company that the veterinary biological products produced by the firm are not included with materials listed in Title 29 of the Code of Federal Regulations (29 CFR), Chapter XVII, Part 1910. In addition, the veterinary biological products in question are not covered under the Hazardous Materials Communication Act. Therefore, it has been determined that Colorado Serum Company is not required to provide an MSDS for the type of veterinary biological products that it manufactures.

As a result of the information gathered from OSHA, Colorado Serum Company has elected not to provide an MSDS when requested. In the future, if it becomes mandatory for manufacturing firms to provide an MSDS for veterinary biological products, Colorado Serum Company will provide one to its customers.

Thank you for your interest in our products.

Ed Lehigh, VP Marketing
