MATERIAL SAFETY DATA SHEET

QuickDerm Wound Ointment

VetCare, Inc.
198 Crestmere Place
Memphis, TN 38112

SECTION 1 IDENTIFICATION OF THE SUBSTANCE OR PREPARATION

SECTION 1.1 Identification of the Substance or Preparation

SUBSTANCE IDENTIFICATION: QuickDerm Wound Ointment

CHEMICAL NAME: None, QuickDerm Wound Ointment is a mixture

CAS NUMBER: None, QuickDerm Wound Ointment is a mixture

EINECS NUMBER: None, QuickDerm Wound Ointment is a mixture

OTHER IDENTIFICATION MEANS: None

MANUFACTURED AT: Memphis, TN

SECTION 1.2 Use of the Substance or Preparation

QuickDerm Wound Ointment is an ointment intended for use in dressing wounds in veterinary applications.

SECTION 1.3 Emergency Telephone

888-490-2620

SECTION 2 COMPOSITION/INFORMATION ON INGREDIENTS

QuickDerm Wound Ointment is a mixture of organic salts, water, and a citrate buffer in a polyethylene glycol ointment.

SECTION 3 HAZARDS IDENTIFICATION

QuickDerm Wound Ointment is not a dangerous substance according to the classification rules in Directives 67/548/EEC or 1999/45/EC.

SECTION 3.1 Emergency Overview

QuickDerm Wound Ointment is a white, semi-solid material that is packaged in tubes. QuickDerm Wound Ointment may catch fire and burn if exposed to ignition sources such as an open flame. Combustion products mainly are compounds of carbon, hydrogen and oxygen, including carbon monoxide.

SECTION 3.2 Potential Health Effects By Route Of Exposure

Chronic (Cancer): QuickDerm Wound Ointment and the ingredients from which it is formulated are not listed in lists of carcinogens published by IARC, NTP or OSHA.

Conditions Aggravated: Data are not available.

SECTION 3.2 Potential Health Effects By Route Of Exposure (cont'd)

Eye:	If gotten into the eye, QuickDerm Wound Ointment may burn and irritate the eye, causing redness and watering.
Ingestion:	Ingestion of small amounts, e.g. 1 or 2 grams or less, of QuickDerm Wound Ointment is not likely to be harmful.
Inhalation:	Data not available.
Skin Absorption:	Data not available.
Skin Contact:	Repeated handling of QuickDerm Wound Ointment may irritate skin.

SECTION 4 FIRST AID MEASURES

SECTION 4.1 First Aid Procedures

Eye:	Flush with water to remove. Get medical help if irritation persists.
Inhalation:	Remove to fresh air. Get medical help if severe coughing or breathing difficulty occurs.

SECTION 5 FIRE FIGHTING MEASURES

SECTION 5.1 Flammable Properties

QuickDerm Wound Ointment may catch fire and burn if exposed to ignition sources such as an open flame. Combustion products mainly are compounds of carbon, hydrogen and oxygen, including carbon monoxide.

SECTION 5.2 Explosion Properties

QuickDerm Wound Ointment is not an explosion hazard.

SECTION 5.3 Extinguishing Media

Water is effective to extinguish burning QuickDerm Wound Ointment. Other extinguishing methods may be used as deemed appropriate. No extinguishing method is known to be unsafe for use with QuickDerm Wound Ointment.

SECTION 5.4 Fire-fighting Instruction

Keep personnel removed from and upwind of fire. Wear appropriate fire-fighting gear and respiratory protection.

SECTION 6 ACCIDENTAL RELEASE MEASURES

Collect for recovery or disposal. Other than gloves, special personal or environmental precautions are not necessary.

SECTION 7 HANDLING AND STORAGE

SECTION 7.1 Handling

Use equipment and practices appropriate for large, heavy items. Special precautions are not necessary.

SECTION 7.2 Storage

Store QuickDerm Wound Ointment in cool, dry location away from heat sources.

SECTION 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

The remarks in this section are intended to guide the handling of QuickDerm Wound Ointment in bulk amounts.

SECTION 8.1 Exposure Limit Values

Data not available.

SECTION 8.2 Exposure Controls

SECTION 8.2.1 Occupational Exposure Controls

Minimize practices that expose QuickDerm Wound Ointment, in large amounts, to unprotected skin.

SECTION 8.2.1.1 Respiratory Protection

Respiratory protection measures are not known for routine handling of QuickDerm Wound Ointment.

SECTION 8.2.1.2 Hand Protection

Wear gloves to minimize potential irritation from handling.

SECTION 8.2.1.3 Eye Protection

Wear safety glasses or goggles when handling QuickDerm Wound Ointment to reduce risk of contact with eyes.

SECTION 8.2.1.4 Skin Protection

Outer garments may be desirable to protect personal apparel.

SECTION 8.2.2 Environmental Exposure Controls

Special environmental exposure controls are not known.

SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES

SECTION 9.1 General Information

Appearance: QuickDerm Wound Ointment is a white, semi-solid, ointment-like material.

SECTION 9.2 Important Health, Safety and Environmental Information

Boiling Point (760 mmHg):	Not applicable
Evaporation Rate (Butyl Acetate = 1):	Not applicable
Flash Point (Method Used):	Not applicable
Melting Point:	@ 42°C
pH:	@ 3.9 as a 10% w/w solution
Solubility in Water:	Soluble in cold and hot water
Specific Gravity (H ₂ O = 1):	Unknown
Vapor Density (Air = 1):	Not known
Vapor Pressure (mmHg at 20°C):	Not known

SECTION 9.3 Other Information

Ignition Temperature: Not known.

Minimum Explosive Concentration: Not known.

Thermal Decomposition: Not known.

SECTION 10 STABILITY AND REACTIVITY

SECTION 10.1 Conditions to Avoid

None are known.

SECTION 10.2 Materials to Avoid

Open flames.

SECTION 10.3 Hazardous Decomposition Products

Chemical Stability: QuickDerm Wound Ointment is stable

Hazardous Decomposition Products: None known

Hazardous Polymerization: Will not occur

SECTION 11 TOXICOLOGICAL INFORMATION

Information is available upon request.

SECTION 12 ECOLOGICAL INFORMATION

SECTION 12.1 Ecotoxicity

No data are available.

SECTION 12.2 Mobility

No data are available.

SECTION 12.3 Persistence and Biodegradability

No data are available.

SECTION 12.4 Bioaccumulative Potential

No data are available.

SECTION 12.5 Other Adverse Effects

No data are available.

SECTION 13 DISPOSAL CONSIDERATIONS

EUROPEAN UNION

QuickDerm Wound Ointment does not have the properties of a hazardous waste (Council Directive 94/31/EC), and it may be disposed in Member Countries according to Council Directive 75/442/EEC, as amended.

UNITED STATES

QuickDerm Wound Ointment is not a hazardous waste, and it may be land filled or incinerated in accordance with federal, state and local requirements.

SECTION 14 TRANSPORT INFORMATION

The U. S. Department of Transportation does not regulate QuickDerm Wound Ointment as a hazardous material.

SECTION 15 REGULATORY INFORMATION

Regulatory information is provided as a service to our customers. This information may not address all applicable local, state, national and international regulations. The customer is responsible to determine regulatory information that is relevant to their usage of this product. If further assistance is needed, contact your QuickDerm Wound Ointment Sales representative.

SECTION 15.1 Inventories

QuickDerm Wound Ointment is a mixture; and, as such, is not required to be included in United States or International inventories of chemical substances. QuickDerm Wound Ointment is formulated from ingredients that are identified in United States (TSCA Chemical Substance Inventory) and international (Canadian DSL and EINECS) inventories of chemical substances.

SECTION 15.2 U.S. Federal Regulations

COMPREHENSIVE ENVIRONMENTAL RESPONSE, COMPENSATION AND LIABILITY ACT OF 1980 (CERCLA), also called "SUPERFUND":

QuickDerm Wound Ointment is not a designated hazardous substance (40 CFR 302.4), and there are no reportable quantities (40 CFR 302.5) for its releases. Therefore, any QuickDerm Wound Ointment releases to the environment are not subject to CERCLA notification requirements (40 CFR 302.6).

SOLID WASTE DISPOSAL ACT/RESOURCE CONSERVATION AND RECOVERY ACT (RCRA):

QuickDerm Wound Ointment is not hazardous waste. It does not have characteristics of ignitability (40 CFR 261.21), corrosivity (40 CFR 261.22), or reactivity (40 CFR 261.33); and based on knowledge of its composition, it should not exhibit the toxicity characteristic (40 CFR 261.24). Furthermore, QuickDerm Wound Ointment is not included among the lists of hazardous wastes at 40 CFR Part 261, Subpart D.

SUPERFUND AMENDMENTS AND REAUTHORIZATION ACT OF 1986 (SARA):

TITLE III - EMERGENCY PLANNING AND COMMUNITY RIGHT TO KNOW

Subtitle A - Emergency Planning and Notification

Sec. 302. Substances and facilities covered and notification

QuickDerm Wound Ointment is not included in the List Of Extremely Hazardous Substances and Their Threshold Planning Quantities (40 CFR Part 355, Appendices A and B).

Subtitle B - Reporting Requirements

Sec. 311. . Material safety data sheets (MSDS)

A MSDS may be required to be available for QuickDerm Wound Ointment. (See OSHA below) If so, and if QuickDerm Wound Ointment exceeds threshold levels (40 CFR 370.20(b)), this MSDS may be subject to MSDS reporting regulations at 40 CFR 370.21.

Sec. 312. Emergency and hazardous chemical inventory forms

A MSDS may be required to be available for QuickDerm Wound Ointment. (See OSHA below.) If so, and if QuickDerm Wound Ointment exceeds threshold levels (40 CFR 370.20(b)), QuickDerm Wound Ointment may be subject to Inventory reporting regulations at 40 CFR 370.25.

Sec. 313. Toxic chemical release forms

QuickDerm Wound Ointment is exempt from Toxic Chemical Release Reporting and Supplier Notification Requirements (40 CFR, Part 372, Subparts B and C, respectively). QuickDerm Wound

Ointment is not included in the Specific Toxic Chemical Listings (40 CFR, Subpart D) to which release reporting and supplier notification requirements apply. Furthermore, chemicals included in the Specific Toxic Chemical listings that might appear as impurities in QuickDerm Wound Ointment will be present at or below *de minimus* concentrations (40 CFR 372.38).

OCCUPATIONAL SAFETY AND HEALTH ACT:

OSHA Hazard Communication Standard (29 CFR 1910.1200) may require that a Material Safety Data Sheet (MSDS) be available for QuickDerm Wound Ointment.

SECTION 15.3 U.S. State Regulations

CALIFORNIA PROPOSITION 65:

QuickDerm Wound Ointment and the ingredients from which it is formulated are not included in the list of chemicals known to California to cause cancer or reproductive toxicity.

SECTION 16 OTHER INFORMATION

To the best of our knowledge, the information contained herein is accurate. However, VetCare, Inc. makes no warranties or representations concerning the information in this document.
