

SAFETY DATA SHEETS

This SDS packet was issued with item:

078879888

The safety data sheets (SDS) in this packet apply to the individual products listed below. Please refer to invoice for specific item number(s).

078772827 078878425

CLENZ-A-DENT PLAQUE OFF

1- Identification of the product and the company

Name : **CLENZ-A-DENT PLAQUEOFF**
Type : Powder
Normal use : Hygiene for animals
Manufacturer : **SWEDENCARE AB** Kiruna, Sweden
Distributor for the US: **INTERNATIONAL DENTAL LLC**, Rancho Cucamonga, CA
Tel: (909)989-0884

2- Composition/information about components:

Representative hazardous compounds :

None

3- Identification of hazards

Main hazards :

None

4- First aid

Generally, in case of any doubt or if symptoms are persistent, always seek medical advice.
NEVER give something to ingest to an unconscious person.
Reminder: an unconscious person should be placed in security position.

In case of inhalation:

No emergency measure required.
Non toxic. Do not intentionally breathe dust.

In case of contact with the eyes:

Take eye lenses off.
Rinse abundantly with water while keeping eyelids widely open.
In case of pain, redness or visual disorders, seek medical attention

In case of contact with the skin:

Wash with mild soap and water. Seek medical attention is irritation occurs.

In case of ingestion:

No emergency measure required.

5- Measure against hostile fire

In case of hostile fire, the recommended extinction agents are:

All authorized extinction agents: foam, sand, carbon dioxide, powder

Unadvised extinction agents :

None

Particular hazards, combustion residues, released gas:

Not applicable

Special equipment for firefighters :

Firefighters should be equipped with isolating self-contained respiratory protecting devices.
Full protection once-piece coverall.

6- Measures in case of accidental release

Individual measures:

Avoid loose product on the floor in damp areas as product may become slippery with the addition of clean up water.

Environmental measures Precautions:

High concentrations may cause burning of plants.

Cleaning instructions:

May be easily cleaned up by removing as much solid as possible and washing remaining spill with copious amounts of water
Do not refill the container with the spilled product for further use.

7- Storage and handling

Instructions relating to storage are applicable to buildings and places where the products are handled.

Handling : Avoid contact with the eyes. Use personal protection equipment.

Storage :

Keep the container closed and in a dry place. Avoid exposure to high humidity or moisture levels.

Keep in the original container only.

Do not store beyond the expiry date indicated on the container.

8- Control of exposure/individual protection Contrôle

Technical measures: No specific ventilation requirement. Eyewash facilities should be available.

Respiratory protection devices: Dust masks should be worn when handling large, loose amounts

Hand protection: Gloves should be worn when handling large, loose amounts.

Face and eyes protection: Eye protection should be worn when handling large, loose amounts.

9- Physical and chemical properties

Density:	0.6-0.8 g/cm ³
Odor:	Marine-like
Color:	Olive green
Solubility in water:	insoluble
Vapor pressure of volatile components at 50°C:	not applicable
Physical state:	flakes or powder
Flash point interval:	not relevant
pH:	6-8
Ignition temperature:	approx. 550°C
Decomposition temperature:	approx. 550°C
Melting point:	not relevant
Medium temperature for the distillation of solvents:	not relevant

10- Stability and reactivity

The product is stable under the storage and handling conditions stated in paragraph 7 of this MSDS.

Unadvised conditions: avoid excessive humidity or moisture levels.

Unadvised material: none

Decomposition hazards : none

11- Toxicology information

No data available.

No component indicates that the product could represent a toxicological hazard

12- Environment information

Biodegradable product.
High concentrations may cause burning of plants

Aquatic toxicity: none

13- Special precautions for the disposal

Wastes:
Not classified as hazardous waste. Recycle or dispose of according to local procedures.

14-Special precautions for transport

Non hazardous material according to transport regulations. No special precautions are necessary.

ADR / RID	Not listed
IMDG	Not listed
IATA	Not listed

15- Regulatory information

The product is not listed as hazardous.

16- Other information

The environment and working conditions of the persons handling the products not being known to us, the information contained in this MSDS are based on our knowledge as well as on the national and EU regulations.

The product should not be used for other purposes than indicated in paragraph one without the receipt of written special handling instructions.

It is the responsibility of the user to take all necessary actions to comply with local laws and regulations.

The information contained in this MSDS should be considered as a description of the security requirements relating to the product and not as a guarantee of the product's properties.

It is recommended to pass the information contained in this MSDS to the end user, in a suitable presentation if necessary.

All information contained in this MSDS refers only to the specified product and cannot be valid if the product is combined with other material.

CLENZ-A-DENT MOUTH RINSE/WATER ADDITIVE

1- Identification of the product and the company

Name : **CLENZ-A-DENT MOUTH RINSE/WATER ADDITIVE**
Type : Liquid
Normal use : Hygiene for animals
Manufacturer : **OYSTERSHELL NV** Booiebos 24, 9031 Drongen (Belgium)
Distributor for the US: **SOGIVAL Laboratories, Inc.** 635 Fritz Drive, Suite 210, Coppell, TX 75019
Tel: 866-866-8896

2- Composition/information about components:

Representative hazardous compounds :

None

3- Identification of hazards

Main hazards :

Eye contact: may cause mild irritation
Skin contact: may cause skin irritation on prolonged or repeated contact
Ingestion: may be harmful when ingested in large quantities

4- First aid

Generally, in case of any doubt or if symptoms are persistent, always seek medical advice.
NEVER give something to ingest to an unconscious person.
Reminder: an unconscious person should be placed in security position.

In case of inhalation:

Not applicable

In case of contact with the eyes:

Take eye lenses off.
Rinse abundantly with water while keeping eyelids widely open.
In case of pain, redness or visual disorders, seek medical attention

In case of contact with the skin:

Rinse area with plenty of water. Get medical attention if irritation persists

In case of ingestion:

Drink a couple of glasses of water. Seek medical advice in case of digestive disorder.

5- Measure against hostile fire

In case of hostile fire, the recommended extinction agents are:

Authorized extinction agents: water spray, all-purpose dry chemical, CO2

Unadvised extinction agents :

None

Particular hazards, combustion residues, released gas:

None

Special equipment for firefighters :

Firefighters should be equipped with isolating self-contained respiratory protecting devices.
Full protection once-piece coverall.

6- Measures in case of accidental release

Individual measures:

Spill area may be slippery.

Environmental measures Precautions:

None

Cleaning instructions:

Cover with inert, absorbent material and remove to disposal container. Flush spill area with plenty of water.

7- Storage and handling

Instructions relating to storage are applicable to buildings and places where the products are handled.

Handling : None

Storage :

Keep the container closed and in a dry place. Avoid exposure to high humidity or moisture levels.

Keep in the original container only.

Do not store beyond the expiry date indicated on the container.

Store at room-controlled temperature: 20-25 C (68-77 F)

8- Control of exposure/individual protection Contrôle

Technical measures: None required

Respiratory protection devices: None required

Hand protection: The use of protective gloves is recommended

Face and eyes protection: Avoid eye and skin contact. The use of safety goggles is recommended.

Wash hands after handling the product. Keep away from food and drink. Follow general precautions for the handling of chemical products.

9- Physical and chemical properties

Density:	not known
Odor:	minty
Color:	yellow-greenish clear solution
Solubility in water:	soluble
Vapor pressure of volatile components at 50°C:	not relevant
Physical state:	liquid
Flash point interval:	not applicable
pH:	not known
Ignition temperature:	not applicable
Decomposition temperature:	not applicable
Melting point:	not applicable
Medium temperature for the distillation of solvents:	insoluble

10- Stability and reactivity

The product is stable under the storage and handling conditions stated in paragraph 7 of this MSDS. This product is stable, hazardous polymerization will not occur.

Unadvised conditions: avoid excessive humidity or moisture levels (> 70% HR) and high temperature (> 30°C)

Unadvised material: avoid contact with strong oxidizing agents

Decomposition hazards : none known

11- Toxicology information

This product has not been tested as a whole. However, based on the safety of its ingredients and the similarity of the composition to other products (mouthrinses) it is deemed safe for its intended use.

12- Environment information

Not available

Aquatic toxicity: no data available

13- Special precautions for the disposal

Wastes:

Not classified as hazardous waste. Recycle or dispose of according to local procedures. Do not dump into sewers, any body of water or onto the ground.

14-Special precautions for transport

Non hazardous material according to transport regulations. No special precautions are necessary.

ADR / RID	Not listed
IMDG	Not listed
IATA	Not listed

15- Regulatory information

The product is not listed as hazardous.

16- Other information

The environment and working conditions of the persons handling the products not being known to us, the information contained in this MSDS are based on our knowledge as well as on the national and EU regulations.

The product should not be used for other purposes than indicated in paragraph one without the receipt of written special handling instructions.

It is the responsibility of the user to take all necessary actions to comply with local laws and regulations.

The information contained in this MSDS should be considered as a description of the security requirements relating to the product and not as a guarantee of the product's properties.

It is recommended to pass the information contained in this MSDS to the end user, in a suitable presentation if necessary.

All information contained in this MSDS refers only to the specified product and cannot be valid if the product is combined with other material.
