SAFETY DATA SHEETS

This SDS packet was issued with item:

078910058

The safety data sheets (SDS) in this packet apply to the individual products listed below. Please refer to invoice for specific item number(s).

078909530

1. Product and Company Identification

Product Name: Sogeval KetoSeb Mousse + PS
Chemical Family/Use: Medicated Topical Mousse

2. Composition/Information on Ingredients

PRODUCT COMPOSITION	CAS REG NO.	WGT.%
Phytosphingosine SLC	100403-19-8	0.05%
Ketoconazole	65277-42-1	1%
Chlorhexidine Gluconate	18472-51-0	2%
Water		
Propylene Glycol		
Glycerine		
Polysorbate 20		
Lactic Acid		
Fragrance		
Methylisothiazolinone		

3. Hazards Identification

Potential Health Effects

Inhalation: May be harmful if inhaled. Inhalation of mist may cause chemical pneumonitis, characterized by swelling and inflammation of the lungs. May cause respiratory tract irritation.

Skin: None known.

Eye: May cause mild eye irritation.

Ingestion: None known.

Medical Conditions Aggravated: Respiratory disorders.

Chronic Effects/ Carcinogenicity: This product or one of its ingredients present at 0.1% or more is NOT listed as a carcinogen or suspected carcinogen by NTP, IARC or OSHA.

4. First Aid Measures

Inhalation: If inhaled, remove to fresh air. If not breathing give artificial respiration using a barrier device. If breathing is difficult give oxygen. Get medical attention. Direct inhalation may cause irritation.

Skin Contact: In case of skin contact, wash affected areas with soap and water. Get medical attention if symptoms occur.

Obtained by Global Safety Management, Inc. www.globalsafetynet.com (Tel: 1-813-435-5161)

Eye Contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if irritation persists.

IngestionIf ingested, do NOT induce vomiting. If victim is conscious, give 1-3 glasses of water to drink. Never give anything by mouth to an unconscious person. Get medical attention.

5. Fire-Fighting Measures

Flash Point: **°C; °F**
Sensitivity to Mechanical Impact: **None – Water Based Product**
Sensitivity to Static Discharge: Sensitivity to static discharge is expected.

Flammability of the product: Contact with combustible material may cause fire. This material increases the risk of fire and may aid combustion. In a fire or if heated, a pressure increase will occur and the container may burst.

Suitable Extinguishing Media: Dry chemical, CO2, water spray (fog) or foam.

Hazardous combustion products: Decomposition products may include the following materials: carbon oxides.

Special exposure hazards: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.

Special Fire Fighting Procedures: Firefighters must wear NIOSH/MSHA approved positive pressure self-contained breathing apparatus with full face mask and full protective clothing.

6. Accidental release measures

Spill and Leak Procedures: Wear proper protective equipment as specified in the protective equipment section. Wipe, scrape, or soak up spill in an inert material for disposal. Wash walking surfaces with detergents and water to reduce slipping hazard. Observe government regulations.

7. Handling and Storage

Storage Period: 2 years

Handling/Storage Precautions Store in original container away from heat, sources of ignition, and incompatibles. Keep container closed when not in use. Avoid contact with skin and eyes. Keep away from children.

8. Exposure Controls / Personal Protection

Obtained by Global Safety Management, Inc. www.globalsafetynet.com (Tel: 1-813-435-5161)

Engineering Controls: Eyewash stations; Showers; Ventilation and other forms of engineering controls are preferred for controlling exposures. Respiratory protection may be needed for non-routine or emergency situations.

Respiratory Protection: If exposure limits are exceeded or respiratory irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Supplied air respirators may be required for non-routine or emergency situations. Respiratory protection must be provided in accordance with OSHA regulations (see 29CFR 1910.134).

Eye and Face Protection: Safety glasses with side-shields.

Skin and body protection: Rubber gloves.

Additional Protective Measures: Wear suitable protective clothing and eye/face protection.

9. Physical and chemical properties

Physical State:	Watery Liquid
Color:	Pinkish - Ogange
Odor:	Cucumber Melon Fragrance
pH:	3.5 – 4.5
Boiling Point – C&F:	>300°C; >572°F
Melting Point:	Not Established
Evaporation Rate (Butylacetate=1)	Negligible
Vapor Pressure (20 C) (MM HG):	Negligible
Vapor Density (AIR=1)	Negligible
Specific Gravity (water = 1):	1.00 – 1.02
Solubility in Water (20 C):	Fully Soluble in Water
Solubility in Organic Solvent (State Solvent):	Soluble in Toluene
% Volatile by Volume	<1

10. Stability and Reactivity

Hazardous Reactions: Hazardous polymerization does not occur.

Stability: Stable.

Conditions to avoid: None known.

Materials to avoid: None known.

Hazardous Thermal decomposition/combustion products: Carbon monoxide; Carbon dioxide (CO2);

11. Toxicological Information

Acute Oral Toxicity: No data available.

Skin Irritation: No Irritation

Eye Irritation: Moderate irritation

Sensitization: No Irritation

Acute Inhalation: No Irritation

Acute Dermal: No Irritation

Other:

12. Ecological Information

Ecotoxicity: No data available.

Distribution: No data available.

Chemical Fate: No data available.

13. Disposal considerations

Disposal Method: Disposal should be in accordance with existing federal, state and local environmental control laws.

14. Transportation information

Non-regulated

15. Regulatory Information

US Regulatory Information

SARA (311,312) Hazard Class

Canadian Regulatory Information

WHMIS Hazard Class
