### **SAFETY DATA SHEETS**

This SDS packet was issued with item: 078910413

The safety data sheets (SDS) in this packet apply to the individual products listed below. Please refer to invoice for specific item number(s).

078801471 078910214

# SAFETY DATA SHEET

**Glycopyrrolate Injection, USP** 

## Section 1. Identification

GHS product identifier	: Glycopyrrolate Injection, USP		
Synonyms	: Robinul.		
Product code	<ul> <li>NDC 0641-6033-01 NDC 0641-6033-25 NDC 0641-6034-01 NDC 0641-6034-25 NDC 0641-6035-01 NDC 0641-6035-25 NDC 0641-6036-01 NDC 0641-6036-10 NDC 0641-6104-01 NDC 0641-6104-25 NDC 0641-6105-01 NDC 0641-6105-25 NDC 0641-6106-01 NDC 0641-6106-25 NDC 0641-6107-01 NDC 0641-6107-10</li> </ul>		
Chemical family	: Anticholinergic Agent.		
Product type	: Regulated prescription drug.		
Container information	: 1 and 2 mL single dose vials or 5 and 20 mL multiple dose vials.		
Relevant identified uses of	of the substance or mixture and uses advised against		
Pharmaceuticals.			
Supplier's details	: WEST-WARD PHARMACEUTICALS EATONTOWN, NJ 07724		
Emergency telephone number (with hours of operation)	: CHEMTREC, U.S. : 1-800-424-9300 International: +1-703-527-3877		

## Section 2. Hazards identification

OSHA/HCS status	: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.
Classification of the substance or mixture	: Not classified.
GHS label elements	
Signal word	: No signal word.
Hazard statements	: No known significant effects or critical hazards.
Precautionary statements	
Prevention	: Not applicable.
Response	: Not applicable.
Storage	: Not applicable.
Disposal	: Not applicable.
Hazards not otherwise classified	: None known.

## Section 3. Composition/information on ingredients

#### Substance/mixture

Other means of

identification

: Mixture

: Robinul.

### **CAS number/other identifiers**

Ingredient name	%	CAS number
Water	60 - 100	7732-18-5
Benzyl alcohol	0.1 - 1	100-51-6
Glycopyrrolate	0 - 0.1	596-51-0

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

### Description of necessary first aid measures

Eye contact	<ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.</li> </ul>
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	: Flush contaminated skin with plenty of water. Get medical attention if symptoms occur.
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

### Most important symptoms/effects, acute and delayed

Potential acute health effects	
Eye contact :	No known significant effects or critical hazards.
Inhalation :	No known significant effects or critical hazards.
Skin contact :	No known significant effects or critical hazards.
Ingestion :	No known significant effects or critical hazards.
Over-exposure signs/sympton	<u>ns</u>
Eye contact :	No known significant effects or critical hazards.
Inhalation :	No known significant effects or critical hazards.
Skin contact :	No known significant effects or critical hazards.
Ingestion :	No known significant effects or critical hazards.

### Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: No specific fire or explosion hazard.
Hazardous thermal decomposition products	: No specific data.
Special protective actions for fire-fighters	: No special protection is required.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### Section 6. Accidental release measures

Personal precautions, protect	tive equipment and emergency procedures
For non-emergency personnel	: No action shall be taken involving any personal risk or without suitable training. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
For emergency responders	: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods and materials for co	ontainment and cleaning up
Spill	: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

### Precautions for safe handling

Protective measures
Advice on general occupational hygiene
Put on appropriate personal protective equipment (see Section 8).
Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. See also Section 8 for additional information on hygiene measures.

## Section 7. Handling and storage

Conditions for safe storage,	: Store in accordance with local regulations. Store in original container protected from
including any	direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials
incompatibilities	(see Section 10) and food and drink. Keep container tightly closed and sealed until
-	ready for use. Containers that have been opened must be carefully resealed and kept
	upright to prevent leakage. Do not store in unlabeled containers. Use appropriate
	containment to avoid environmental contamination.

## Section 8. Exposure controls/personal protection

Control parameters		
Occupational exposure lim		
None.		
Appropriate engineering controls	No special ventilation requirements. Good general ventilation should be sufficien control worker exposure to airborne contaminants. If this product contains ingre with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statu- limits.	dients
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensute they comply with the requirements of environmental protection legislation.	sure
Individual protection measu		
Hygiene measures	Wash hands, forearms and face thoroughly after handling chemical products, be eating, smoking and using the lavatory and at the end of the working period. En that eyewash stations and safety showers are close to the workstation location.	
Eye/face protection	Safety eyewear complying with an approved standard should be used when a ris assessment indicates this is necessary to avoid exposure to liquid splashes, mis gases or dusts. If contact is possible, the following protection should be worn, un the assessment indicates a higher degree of protection: safety glasses with side shields.	sts, nless
Skin protection		
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard sho worn at all times when handling chemical products if a risk assessment indicates necessary.	
Body protection	Personal protective equipment for the body should be selected based on the tas performed and the risks involved and should be approved by a specialist before handling this product.	k being
Other skin protection	Appropriate footwear and any additional skin protection measures should be sele based on the task being performed and the risks involved and should be approve specialist before handling this product.	
Respiratory protection	Use a properly fitted, air-purifying or supplied air respirator complying with an ap standard if a risk assessment indicates this is necessary. Respirator selection m based on known or anticipated exposure levels, the hazards of the product and t working limits of the selected respirator.	nust be

## Section 9. Physical and chemical properties

### Appearance

<u>Appoulation</u>		
Physical state	Liquio	d. [Aqueous solution.]
Color	Color	less.
Odor	Not a	vailable.
Odor threshold	Not a	vailable.
рН	2 to 3	}
Melting point	Not a	vailable.
Boiling point	Not a	vailable.
Flash point	Not a	pplicable.
Burning time	Not a	pplicable.
Burning rate	Not a	pplicable.
Evaporation rate	Not a	vailable.
Flammability (solid, gas)	Not a	vailable.
Lower and upper explosive (flammable) limits	Not a	vailable.
Vapor pressure	Not a	vailable.
Vapor density	Not a	vailable.
Relative density	Not a	vailable.
Solubility	Easil	y soluble in the following materials: cold water and hot water.
Solubility in water	Not a	vailable.
Partition coefficient: n-	Not a	vailable.
octanol/water		
Auto-ignition temperature	Not a	vailable.
Decomposition temperature	Not a	vailable.
SADT	Not a	vailable.
Viscosity	Not a	vailable.

## Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: Reactive or incompatible with the following materials: oxidizing materials.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 11. Toxicological information

Section 11. Toxico	biogical information
Information on toxicological	effects
Acute toxicity	
There is no data available.	
Irritation/Corrosion	
There is no data available.	
Sensitization	
There is no data available.	
<u>Mutagenicity</u>	
There is no data available.	
<b>Carcinogenicity</b>	
There is no data available.	
Reproductive toxicity	
There is no data available.	
<u>Teratogenicity</u>	
There is no data available.	
Specific target organ toxici	<u>ty (single exposure)</u>
There is no data available.	
Specific target organ toxici	ty (repeated exposure)
There is no data available.	
Aspiration hazard There is no data available.	
There is no data available.	
Information on the likely routes of exposure	: Dermal contact. Eye contact. Inhalation. Ingestion.
Potential acute health effects	<u>S</u>
Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
	vsical, chemical and toxicological characteristics
Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Delayed and immediate offer	cts and also chronic effects from short and long term exposure
Short term exposure	<u>As and also smollo chesto nom short and long term exposure</u>
Potential immediate	: No known significant effects or critical hazards.
effects	
Potential delayed effects	: No known significant effects or critical hazards.
Long term exposure	
Potential immediate effects	: No known significant effects or critical hazards.

### Section 11. Toxicological information

Potential delayed effects	: No known significant effects or critical hazards.	
Potential chronic health effects		
General	: No known significant effects or critical hazards.	
Carcinogenicity	: No known significant effects or critical hazards.	
Mutagenicity	: No known significant effects or critical hazards.	
Teratogenicity	: No known significant effects or critical hazards.	
<b>Developmental effects</b>	: No known significant effects or critical hazards.	
Fertility effects	: No known significant effects or critical hazards.	

### Numerical measures of toxicity

Acute toxicity estimates

There is no data available.

Other information : FDA Class B

## Section 12. Ecological information

#### **Toxicity**

There is no data available.

#### Persistence and degradability

There is no data available.

#### **Bioaccumulative potential**

There is no data available.

#### **Mobility in soil**

Soil/water partition : Not available. coefficient (Koc)

Other adverse effects : No known significant effects or critical hazards.

### Section 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

	DOT Classification	IMDG	ΙΑΤΑ
UN number	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-
Transport hazard class(es)	-	-	-
Packing group	-	-	-
Environmental hazards	No.	No.	No.
Additional information	-	-	-

**AERG** : Not applicable.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to Annex II of MARPOL 73/78 and the IBC Code

## Section 15. Regulatory information

-	-
U.S. Federal regulations	: TSCA 8(a) CDR Exempt/Partial exemption: Not determined United States inventory (TSCA 8b): Not determined.
Clean Air Act Section 112 (b) Hazardous Air Pollutants (HAPs)	: Not listed
Clean Air Act Section 602 Class I Substances	: Not listed
Clean Air Act Section 602 Class II Substances	: Not listed
DEA List I Chemicals (Precursor Chemicals)	: Not listed
DEA List II Chemicals (Essential Chemicals)	: Not listed
