RE: Patterson Account Number [Bill -to Account]

Dear Valued Customer,

As we work through the new account set-up processes necessary to bring Miller Vet under the Patterson brand, the Patterson Veterinary Sales Tax Department would appreciate an opportunity to discuss your new Patterson account with you to ensure that we are aware if your purchases qualify for sales tax exemptions.

Depending on your specific business type and home state, some of your purchases may qualify for sales tax exemptions. The most common are the following:

- Resale exemptions if you have a resale license
- Non-Profits may qualify depending on your state
- Equine or production animal exemptions

All of these exemptions require us to have the appropriate document from you on file. To discuss your qualifying exemptions and the documents we would need, please reach out directly to our sales tax team at the email address below.

PAHTaxAdmin@animalhealthinternational.com

This email inbox will be monitored by multiple individuals on the tax team. If you prefer to discuss your needs by phone, please include your phone number in your email response to us. We look forward to communicating with you regarding your set up in our system.

We look forward to working with you and to strengthen your business and help your practice grow.

Sincerely,

Patterson Animal Health Sales Tax Department
